COALITION GOVERNMENT OF DEMOCRATIC KAMPUCHEA

OFFICE OF
THE PRIME MINISTER
KP/87-119/CAB.

STATEMENT OF H.E. SON SANN,
PRIME MINISTER OF THE COALITION GOVERNMENT
OF DEMOCRATIC KAMPUCHEA (C.G.D.K.).

May 15, 1987.

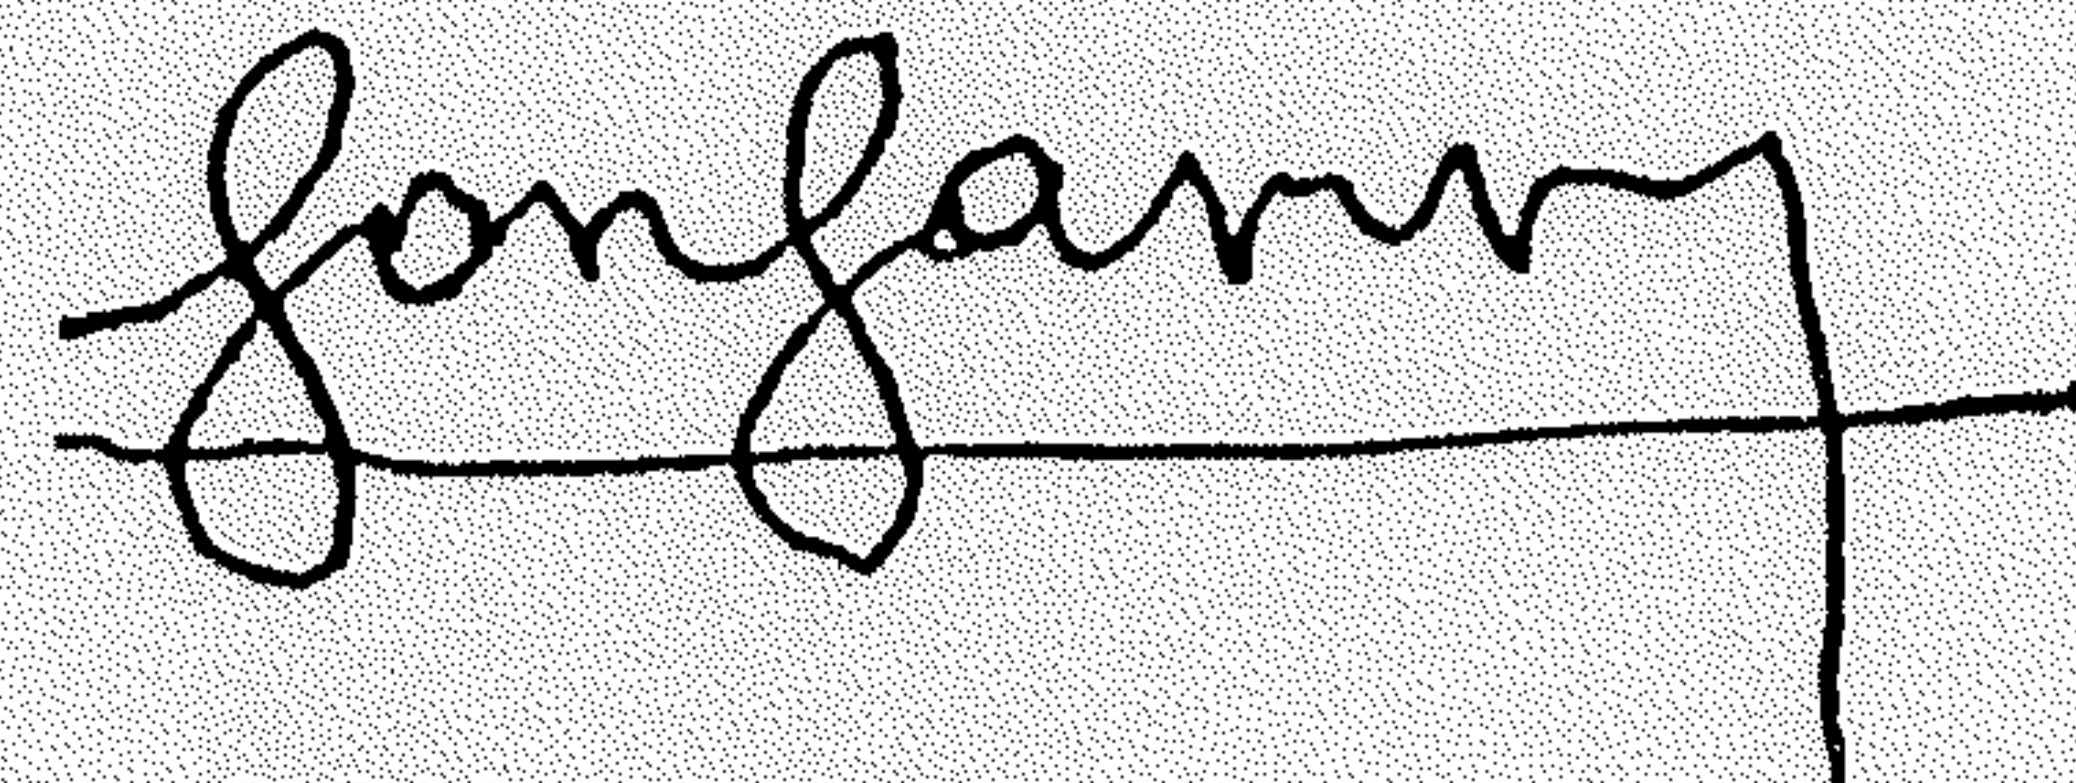

Since Mr. Gorbachev's Speech in Vladisvotok, last July 1986, many other diplomatic moves in Southeast Asia and in the world clearly show that the Cambodian problem has become a worldwide concern. It seems that all the peace-loving peoples and governments unanimously find unacceptable the unjustified occupation of Cambodia by the Vietnamese regular Armed Forces.

As instances of these diplomatic moves, are : the 10th round of the Sino-Soviet talks during which the Soviet Union accepted for the first time to discuss the Cambodian problem; the visit of the United Kingdom's Prime Minister, Mrs. Margaret Thatcher, on behalf of the European countries, in Moscow, and along the same lines, the visit of Thailand's Foreign Ministry, H.E. ACM Siddhi Savetsila, in the name of ASEAN countries, in the same capital Moscow; the "Cocktail's Party" proposed again by the Indonesian Foreign Minister, H.E. Mochtar Kusumaatmadja, and last-the-latest statement made by the UN Secretary General, H.E. Mr. Javier Perez de Cuellar.

The general feeling is that the solution of the Cambodian problem has met renewed interest and concern.

In such a positive context for the Khmer People's national liberation struggle, unity among its people and leaders is essential. That is why as Prime Minister of the CGDK, I have asked H.E. Mr. Khieu Samphan, Vice-President of Democratic Kampuchea in charge of Foreign Affairs to do his best to stop, as quickly as possible, the negative attitudes of Democratic Kampuchea's troops towards the other nationalist factions' forces of the CGDK, and to satisfy Samdech Norodom Sihanouk's demands and legitimate concern.

The presence of Prince Norodom Sihanouk as President of Democratic Kampuchea at the head of the Coalition is indispensable for the political solution that we hope in the near future for our country.
