Mr. Michael Hayes  
 Publisher & Editor-in-Chief  
 Phnom Penh Post  
 No. 10A, Street 264  
 Phnom Penh

Dear Michael:

As per our conversation this afternoon, I am pleased to send you the Khmer and /English editions of our summary report on the *National Survey on Public Attitudes Towards Corruption*. The findings have not been made available to the general public as yet but we plan to distribute this information at the Press Conference scheduled for January 14, 1999 at the Sunway Hotel.

I trust you will find the results of the research interesting. The questionnaire was compiled based on interviews with a diverse group of persons representing various strata of social structure. Administered in Phnom Penh, Kandal and Takeo provinces, the survey asked 1,513 adults from 22 occupations how they felt about corruption. Seven researchers, 5 of whom teach at the university were recruited by CSD to carry out this survey.

The data was collected and sent to USA for an analysis by our consultant. The findings are surprising; all provide baseline information on knowledge and attitudes for future counter corruption efforts.

I hope this very relevant topic is of interest to the *Phnom Penh Post*. This is also a prelude to the upcoming annual conference for the Consultative Group which will be meeting in February regarding future funding policies for Cambodia.

Thank you for your interest in this topic. My colleagues at CSD join me in wishing you and the staff of *Phnom Penh Post* a very Prosperous and Peaceful New Year.

Sincerely yours,

Chea Vannath  
 President
