

Statement of Co-Authorship

As co-authors of the manuscript entitled: “**Non-invasive spinal cord stimulation restores hand function after paralysis**” that had been prepared for submission to **Nature**,

We confirm that **Fatma Inanici** was the primary contributor to the study in each of the following areas:

- Design of the study
- Data collection
- Data analysis and interpretation of the findings
- Writing of the manuscript and critical appraisal of the content

Statement of Co-Authorship

As co-authors of the manuscript entitled: **“Transcutaneous Electrical Spinal Stimulation Promotes Long-Term Recovery of Upper Extremity Function in Chronic Tetraplegia”** that had been published in **IEEE Trans Neural Syst Rehabil Eng, 26(6), 1272-1278.**

We confirm that Fatma Inanici was the primary contributor to the study in each of the following areas:

- Design of the study
- Data collection
- Data analysis and interpretation of the findings
- Writing of the manuscript and critical appraisal of the content
