## N O T I C E

Because of financial restrictions, automatic mailings of all University of Washington Department of Oceanography reprints in the Contribution series have been discontinued. Those interested in specific reprints should direct their requests to the author, Department of Oceanography, WB-10, University of Washington, Seattle, Washington 98195. A list of publications follows.

Papers listed in the 1975 Contributions but since published are on the first two pages. The new Contributions start with No. 834.

717. Packard, T.T. and D. Blasco  
1975. Nitrate reductase activity in upwelling regions. 2. Ammonia and light dependence. *Téthys* 6(1-2):269-280.
718. Packard, T.T., D. Harmon, and J. Boucher  
1975. Respiratory electron transport activity in plankton from upwelled waters. *Téthys* 6(1-2):213-222.
720. MacIsaac, J.J. and R.C. Dugdale  
1975. Nitrogen uptake in the northwest Africa upwelling area: results from the CINECA - CHARCOT II cruise. *Téthys* 6(1-2):69-76.
729. Pavlou, S.P., G.E. Friederich, J.J. MacIsaac, and R.C. Dugdale  
1975. A modified tracer technique for the determination of nitrogen uptake by marine phytoplankton. *Téthys* 6(1-2):171-178.
749. Kenner, R.A. and S.I. Ahmed  
1975. Measurements of electron transport activities in marine phytoplankton. *Marine Biology* 33:119-127.
752. Ling, H.Y.  
1974. Polycystine Radiolaria and silicoflagellates from surface sediments of the Sea of Okhotsk. *Bulletin of the Geological Survey of Taiwan* no. 24:1-11.
755. Frost, B.W.  
1974. Calanus marshallae, a new species of calanoid copepod closely allied to the sibling species C. finmarchicus and C. glacialis. *Marine Biology* 26:77-99.
761. Lie, U.  
1974. Distribution and structure of benthic assemblages in Puget Sound, Washington, U.S.A. *Marine Biology* 26:203-223.
762. Wakeham, S. and R. Carpenter  
1974. Electron spin spectra of marine and freshwater manganese nodules. *Chemical Geology* 13:39-47.
766. Worsley, T. and M. Jorgens  
1974. Oligocene calcareous nannofossil provinces. In Ross, C.A. (ed.), S.E.P.M. symposium volume on paleo-provinciality research: Paleogeographic provinces and provinciality: 85-108. Society of Economic Paleontologists and Mineralogists.
768. Eide, L.I. and S. Martin  
1975. The formation of brine drainage features in young sea ice. *Journal of Glaciology* 14(70):137-154.
771. Walsh, J.J.  
1975. Utility of systems models: A consideration of some possible feedback mechanism of the Peru upwelling ecosystem. Proceedings of the Second International Estuarine Conference. In Cronin, L.E. (ed.), *Estuarine Research*, Academic Press, New York.

775. Ling, H.Y.  
1975. Radiolaria: Leg 31 of the Deep Sea Drilling Project. Initial Reports of the Deep Sea Drilling Project 31:703-761. U.S. Government Printing Office, Washington.
776. Ling, H.Y.  
1975. Silicoflagellates and ebridians from Leg 31 of the Deep Sea Drilling Project. Initial Reports of the Deep Sea Drilling Project 31:763-777. U.S. Government Printing Office, Washington.
778. Kenner, R.A. and S.I. Ahmed  
1975. Correlation between oxygen utilization and electron transport activity in marine phytoplankton. Marine Biology 33:129-133.
783. Codispoti, L.A. and T.G. Owens  
1975. Nutrient transports through Lancaster Sound in relation to the Arctic Ocean's reactive silicate budget and the outflow of Bering Strait waters. Limnology and Oceanography 20(1):115-119.
784. Henry, D.P. and P.A. McLaughlin  
1975. The barnacles of the Balanus amphitrite complex (Cirripedia, Thoracica). Zoologische Verhandelingen. Rijksmuseum van Natuurlijke Historie te Leiden no. 141:254 pp.

785. Ebbesmeyer, C.C.  
1975. Computing current shear from dye observations using one of Okubo's advective - diffusive models. *Journal of Physical Oceanography* 5(1):191-193.
786. Lewin, J., T. Hruby, and D. Mackas  
1975. Blooms of surf-zone diatoms along the coast of the Olympic Peninsula, Washington. V. Environmental conditions associated with the blooms (1971-1972). *Estuarine and Coastal Marine Science* 3(2):229-241.
787. McManus, D.A., K. Venkatarathnam, D. Hopkins, and C.H. Nelson  
1974. Yukon River sediments on the northernmost Bering Sea Shelf. *Journal of Sedimentary Petrology* 44(4):1052-1060.
788. Roden, G.I. and J.D. Irish  
1975. Electronic digitization and sensor response effects on salinity computation from CTD field measurements. *Journal of Physical Oceanography* 5(1):195-199.
789. Carmack, E. and K. Aagaard  
1974. The formation of bottom water in the Greenland Sea. *Colloques Internationaux de CNRS no. 215. Processus de Formation des Eaux Océaniques Profondes*: 65-82.
790. Crecelius, E.A., M.H. Bothner, and R. Carpenter  
1975. Geochemistries of arsenic, antimony, mercury, and related elements in sediments of Puget Sound, Washington. *Environmental Science and Technology* 9:325-333.
791. Bothner, M.H. and D.E. Robinson  
1975. Mercury contamination of seawater samples stored in polyethylene containers. *Analytical Chemistry* 47(3):592-595.
792. Rattray, M., Jr. and P. Welander  
1975. A quasi-linear model of the combined wind-driven and thermohaline circulations in a rectangular  $\beta$ -plane ocean. *Journal of Physical Oceanography* 5(4):585-602.
793. Nichols, F.H.  
1975. Dynamics and energetics of three deposit-feeding benthic invertebrate populations in Puget Sound, Washington. *Ecological Monographs* 45:57-82.
794. Owens, T.G. and F.D. King  
1975. The measurement of respiratory electron transport system activity in marine zooplankton. *Marine Biology* 30:27-36.
795. Griffith, A.M. and B.W. Frost  
Chemical communication in the marine planktonic copepods *Calanus pacificus* and *Pseudocalanus* sp. *Crustaceana* (in press).
796. Frost, B.W.  
1975. A threshold feeding behavior in *Calanus pacificus*. *Limnology and Oceanography* 20(2):263-266.

797. Richards, F.A.  
Oxygen minimum in the eastern tropical Pacific Ocean. Proceedings of the Fifth National Congress of Oceanography, October 1974, Guaymas, Mexico (in press).
798. Anderson, J.J.  
METREX: An experiment to evaluate the processes contributing to the development, maintenance, and decay of the oxygen minimum zone of the eastern tropical Pacific Ocean. Proceedings of the Fifth National Congress of Oceanography, October 1974, Guaymas, Mexico (in press).
799. Bothner, M.H. and R. Carpenter  
1973. Sorption-desorption reactions of mercury with suspended matter in the Columbia River. Radioactive Contamination of the Marine Environment: 73-87. International Atomic Energy Agency, Vienna, 1973 (SM-158/5).
800. Rattray, M., Jr. and E. Mitsuda  
1974. Theoretical analysis of conditions in a salt wedge. Estuarine and Coastal Marine Science 2:375-394.
801. Blasco, D.  
Red tide in the upwelling region of Baja California. Limnology and Oceanography (in press).
802. Newton, J. and L.K. Coachman  
1974. Atlantic water circulation in the Canada Basin. Arctic 27(1): 297-303.
803. King, F.D. and T.T. Packard  
1975. The effect of hydrostatic pressure on respiratory electron transport system activity in marine zooplankton. Deep-Sea Research 22:99-105.
804. Ozretich, R.  
1975. Mechanisms for deep water renewal in Lake Nitinat, a permanently anoxic fjord. Estuarine and Coastal Marine Science 3(2):189-200.
805. Whitley, T. and J.C. Kelley  
Interrelationship of chemical and biological phenomena in the Baja California upwelling ecosystem. Proceedings of the Fifth National Congress of Oceanography, October 1974, Guaymas, Mexico (in press).
806. Kelley, J.C.  
Meso-scale physical and chemical response to varying wind in the coastal upwelling area of Baja California, spring 1973. Proceedings of the Fifth National Congress of Oceanography, October 1974, Guaymas, Mexico (in press).
807. Hamilton, P.  
1975. A numerical model of vertical circulation of tidal estuaries and its application to the Rotterdam waterway. Geophysical Journal of the Royal Astronomical Society 40:1-21.

808. Bowden, K.F. and P. Hamilton  
1975. Some experiments with a numerical model of circulation and mixing in a tidal estuary. *Estuarine and Coastal Marine Science* 3(3):281-301.
809. Slawyk, G., J.J. MacIsaac, and R.C. Dugdale  
Incubation of nitrogen uptake experiments. *Limnology and Oceanography* (in press).
810. Hellebust, J.A. and J. Lewin  
Heterotrophic nutrition. In Werner, D. (ed.), *Biology of diatoms*. Blackwells, Oxford (in press).
811. Barbee, W.B., J.G. Dworski, J.D. Irish, L.H. Larsen, and M. Rattray, Jr.  
1975. Measurement of internal waves of tidal frequency near a continental boundary. *Journal of Geophysical Research* 80(15):1965-1974.
812. Murray, J.W.  
1975. The interaction of metal ions at the manganese dioxide solution interface. *Geochimica et Cosmochimica Acta* 39(4):505-519.
813. Crecelius, E.A.  
1975. The geochemical cycle of arsenic in Lake Washington and its relation to other elements. *Limnology and Oceanography* 20(3):441-451.
814. Prinsenber, S.J. and M. Rattray, Jr.  
1975. Effects of continental slope and variable Brunt-Väisälä frequency on the coastal generation of internal tides. *Deep-Sea Research* 22:251-263.
815. Murray, J.W.  
1975. The interaction of cobalt with hydrous manganese dioxide. *Geochimica et Cosmochimica Acta* 39(5):635-647.
816. English, T.S. and G.A. Heron  
A stain for morphological study of copepods. In *Monographs on oceanographic methodology SCOR/WG 23/UNESCO* (in press).
817. Walsh, J.J.  
1975. A spatial simulation model of the Peru upwelling ecosystem. *Deep-Sea Research* 22:201-236.
818. Larsen, L.H. and J.D. Irish  
1975. Tides at Cobb Seamount. *Journal of Geophysical Research* 80(12):1691-1695.
819. Winter, D.F., K. Banse, and G.C. Anderson  
1975. The dynamics of phytoplankton blooms in Puget Sound, a fjord in the northwestern United States. *Marine Biology* 29:139-176.

820. King, F.D. and T.T. Packard  
1975. Respiration and the activity of the respiratory electron system in marine zooplankton. *Limnology and Oceanography* 20(5):849-854.
821. Duxbury, A.C.  
1975. Orthophosphate and dissolved oxygen in Puget Sound. *Limnology and Oceanography* 20(2):270-274.
822. Sternberg, R.W. and L.H. Larsen  
1975. Threshold of sediment movement by open ocean waves: Observations. *Deep-Sea Research* 22:299-309.
823. Castiglione, L.J.  
Aerial observations of water color for the study of phytoplankton community distribution. *Estuarine and Coastal Marine Science* (in press).
824. Castiglione, L.J.  
Phytoplankton communities and circulation in lower Chesapeake Bay. *Journal of Marine Research* (in press).
825. McManus, D.A. and K. Venkatarathnam  
Distribution of bottom sediments on the continental shelf, northern Bering Sea. U.S. Geological Survey Professional Paper (in press).
826. Packard, T.T., A.H. Devol, and F.D. King  
1975. The effect of temperature on the respiratory electron transport system in marine plankton. *Deep-Sea Research* 22:237-249.
827. Kinder, T., L.K. Coachman, and J.A. Galt  
1975. The Bering slope current system. *Journal of Physical Oceanography* 5(2):231-244.
828. Lewin, J. and V.N.R. Rao  
1975. Blooms of surf-zone diatoms along the coast of the Olympic Peninsula, Washington. VI. Daily periodicity phenomena associated with *Chaetoceros armatum* in its natural habitat. *Journal of Phycology* 11(3):330-338.
829. Ebbesmeyer, C.C., C.A. Barnes, and C. Langley  
1975. Application of an advective diffusive equation to a water parcel observed in a fjord. *Estuarine and Coastal Marine Science* 3(3):249-268.
830. Nittrouer, C. and R.W. Sternberg  
1975. The fate of a fine-grained dredge spoils deposit in a tidal channel of Puget Sound, Washington. *Journal of Sedimentary Petrology* 45(1):160-170.
831. Gregg, M.C.  
1975. Oceanic fine and microstructure. *Reviews of Geophysics and Space Physics* 13(3):586-591; 635-636.

832. Shuman, F.R. and C.J. Lorenzen  
1975. Qualitative degradation of chlorophyll by a marine herbivore. *Limnology and Oceanography* 20(4):580-586.
833. Feller, R.J. and V.W. Kaczynski  
1975. Size selective predation by juvenile chum salmon (*Oncorhynchus keta*) on epibenthic prey in Puget Sound. *Journal of the Fisheries Research Board of Canada* 32(8):1419-1429.
834. Landry, M.  
1975. Seasonal temperature effects and predicting development rates of marine copepod eggs. *Limnology and Oceanography* 20(3): 434-440.
835. Piper, D.Z. and L.A. Codispoti  
1975. Marine phosphorite deposits and the nitrogen cycle. *Science* 188:15-18.
836. Dugdale, R.C.  
Nutrient cycling and primary productivity. In Cushing, D.H. and J.J. Walsh (eds.), *The ecology of the sea*. Blackwells, Oxford (in press).
837. Lee, F.A.  
1974. Hydrodynamical stability of a salt **wedge**. *Journal of the Hydraulics Division, American Society of Civil Engineers Proceedings Paper 10271* 100(HY1):17-24.
838. Lewin, J. and J.A. Hellebust  
1975. Heterotrophic nutrition of the marine pennate diatom *Navicula pavillardii* Hustedt. *Canadian Journal of Microbiology* 21(9): 1335-1342.
839. Criminale, W.O., Jr.  
1975. On the asymptotic structure of turbulent transfer coefficients. *Zeitschrift für angewandte Mathematik und Mechanik* 55:291-299.
840. Booth, B.C.  
1975. Growth of oceanic phytoplankton in enrichment cultures. *Limnology and Oceanography* 20(5):865-869.
841. Kelley, J.C., T.E. Whitley, and R.C. Dugdale  
1975. Results of sea surface mapping in the Peru upwelling system. *Limnology and Oceanography* 20(5):784-794.
842. McManus, D.A.  
1975. Modern versus relict sediment on the continental shelf. *Bulletin of the Geological Society of America* 86:1154-1160.
843. Hickey, B.  
1975. The relationship between fluctuations in sea level, wind stress and sea surface temperature in the Equatorial Pacific. *Journal of Physical Oceanography* 5(3):460-475.

844. Huyer, A., B.M. Hickey, J.D. Smith, R.L. Smith, and R.D. Pillsbury  
1975. Alongshore coherence at low frequencies in currents observed over the continental shelf off Oregon and Washington. *Journal of Geophysical Research* 80(24):3495-3505.
845. Landry, M.R.  
1975. The relationship between temperature and the development of life stages of the marine copepod *Acartia clausi* Giesbr. *Limnology and Oceanography* 20(5):854-859.
846. Roden, G.I.  
1975. On North Pacific temperature, salinity, sound velocity and density fronts and their relation to the wind and energy flux fields. *Journal of Physical Oceanography* 5(4):557-571.
847. Baker, E.T.  
Distribution, composition, and transport of suspended particulate matter in the vicinity of Willapa Submarine Canyon, Washington. *Bulletin of the Geological Society of America* (in press).
848. Lorenzen, C. J.  
Primary productivity in the sea. *In* Cushing, D.H. and J.J. Walsh (eds.), *The ecology of the sea*. Blackwells, Oxford (in press).
849. Richards, F.A.  
1975. The Cariaco Basin (Trench). *In* Barnes, H. (ed.), *Oceanography and marine biology: an annual review* 13:11-67, George Allen and Unwin Ltd., London.
850. Mofjeld, H.O. and M. Rattray, Jr.  
1975. Barotropic Rossby waves in a zonal current: effects of lateral viscosity. *Journal of Physical Oceanography* 5(3):421-429.
851. Snysman, W.E., B.T.R. Lewis, and J. McClain  
1975. Upper mantle velocities on the Northern Cocos Plate. *Earth and Planetary Science Letters* 28(1975):46-50.
852. Packard, T.T. and F.Q. Dortch  
Particulate protein in North Atlantic surface water. *Marine Biology* (in press).
853. Walsh, J.J.  
Herbivory as a factor in patterns of nutrient utilization in the sea. *Limnology and Oceanography* (in press).
854. Baker, D.J., Jr.  
1975. Currents, fronts, and bottom water. *Oceanus* 18(4):8-15.
855. Aagaard, K. and P. Greisman  
1975. Toward new mass and heat budgets for the Arctic Ocean. *Journal of Geophysical Research* 80(27):3821-3827.

856. Hruby, T.  
Seasonal changes in the algal populations in the coastal waters of Washington State. *Journal of Ecology* (in press).
857. Ewart, T.  
Acoustic fluctuations in the open ocean—measurement using a fixed refracted path. *Journal of the Acoustical Society of America* (in press).
858. Baker, E.T. and D.Z. Piper  
Suspended particulate matter: collection by pressure filtration and elemental analysis by thin-film X-ray fluorescence. *Deep-Sea Research* (in press).
859. Robertson, S. and J. Lewin  
Blooms of surf-zone diatoms along the coast of the Olympic Peninsula, Washington. VIII. Effects of temperature and oxygen concentration on respiration of Chaetoceros armatum in the natural environment. *Internationale Revue der gesamten Hydrobiologie* (in press).
860. Ozretich, R. and R. Ozretich  
Rates of denitrification by marine bacteria in chemostat and batch culture. *Marine Biology* (in press).
861. Landry, M.R.  
The structure of marine ecosystems: an alternative. *Marine Biology* (in press).
862. Landry, M.R.  
1975. Dark inhibition of egg hatching of the marine copepod Acartia clausi Giesbr. *Journal of Experimental Marine Biology and Ecology* 20(1):43-47.
863. Hruby, T.  
Observation of algal summation resulting from competition. *Estuarine and Coastal Marine Science* (in press).
864. Kelley, J.C.  
1975. Time-varying distributions of biologically significant variables in the ocean. *Deep-Sea Research* 22:679-688.
865. Banse, K.  
1975. Pleuston and neuston: on the categories of organisms in the uppermost pelagial. *Internationale Revue der gesamten Hydrobiologie* 60(4):439-447.
866. Jawed, M.  
An evaluation of the effects of environmental variables on marine plankton primary productivity by multivariate regression. *Internationale Revue der gesamten Hydrobiologie* (in press).

867. Gregg, M.  
Temperature and salinity micro-structure in the Pacific Equatorial Undercurrent. *Journal of Geophysical Research* (in press).
868. Hamilton, P.  
On the numerical formulation of a time dependent multi-level model of an estuary, with particular reference to boundary conditions. *Proceedings of the Estuarine Research Federation, Galveston, Texas, October 7-9, 1975* (in press).
869. Lister, C.R.B. and B.T.R. Lewis  
An ocean-bottom seismometer suitable for arrays. *Deep-Sea Research* (in press).
870. Collos, Y. and J. Lewin  
Blooms of surf-zone diatoms along the coast of the Olympic Peninsula, Washington. VII. Variations of the carbon-to-nitrogen ratio in field samples and laboratory cultures of Chaetoceros armatum. *Limnology and Oceanography* (in press).
871. Blechschmidt, G.  
Biostratigraphy of calcareous nannofossils: Leg 34 of the Deep Sea Drilling Project. *Initial Reports of the Deep Sea Drilling Project 34* (in press).
872. Winter, D.F. and C. Pearson  
Analysis of stratified inlet flow by the methods of weighted residuals. *Proceedings of the Symposium on Modeling of Transport Mechanisms in Oceans and Lakes* (in press).
873. Blechschmidt, G. and T. Worsley  
1975. The application of optical scanning (machine recognition of characters) to computerize collections of paleontologic data. *Journal of Paleontology* 49(6):1121-1125.
874. Winter, D.F. and C. Pearson  
Computation of tidal flow in well-mixed estuaries. *Journal of the Hydraulics Division, American Society of Civil Engineers* (in press).
875. Roden, G.I.  
On the structure and predictions of oceanic fronts. *Naval Research Reviews* (in press).
876. Damkaer, D.M. and G. A. Heron  
Eurytemora richingsi, a new species of deep-water calanoid copepod from the Arctic Ocean. *Proceedings of the Biological Society of Washington* (in press).
877. Codispoti, L.A. and F.A. Richards  
An analysis of the horizontal regime of denitrification in the eastern tropical North Pacific. *Limnology and Oceanography* (in press).

878. Richards, F.A.  
Marine areas of anomalous chemistry resulting from oxygen deficiencies. Proceedings of the ONR symposium, Asilomar California, 10-14 November 1975 (in press).
879. Gregg, M.  
Micro-structure: signature of mixing in the ocean. Naval Research Reviews (in press).
880. Baker, E.T.  
Temporal and spacial variability of the bottom nepheloid layer over a deep sea fan. Marine Geology (in press).
881. Harrison, P.J., H. Conway and R.C. Dugdale  
A marine diatom grown in chemostats under silicate or ammonia limitations. I. Chemical composition. Marine Biology (in press).
882. Conway, H., P.J. Harrison and C.O. Davis  
A marine diatom grown in chemostats under silicate or ammonia limitations. II. Responses of Skeletonema costatum to a single addition of the limiting nutrient. Marine Biology (in press).
883. Sternberg, R.W.  
Measurements of boundary layer flow and boundary roughness over Campeche Bank, Yucatan. Marine Geology (in press).
884. Smith, J.D. and C.E. Long  
The effect of turning in the bottom boundary layer on continental shelf sediment transport. Mémoires de la Société Royale des Sciences de Liège (in press).
885. Welander, P.  
A zonally uniform regime in the oceanic circulation. Journal of Physical Oceanography (in press).
886. Pavlou, S.P. and W. Hom  
Interlaboratory calibration results from chlorinated hydrocarbon analyses in marine sediments. Marine Chemistry (in press).
887. Banse, K.  
Gymnereidinae, new subfamily: the Nereididae (Polychaeta) with bifid parapodial neurocirri. Journal of Natural History (in press).
888. Swift, J. and K. Aagaard  
Upwelling near Samalga Pass. Limnology and Oceanography (in press).
