- g. The situation of the enemy in the entire area of QUEZALTEPEQUE, TONACATEPEQUE, and Metropolitan area is as follows: (nothing followed on the translation)

2. CONCLUSIONS:

- a. According to the information, the terrorists will increase their activities in the metropolitan area, and in the outskirts of the cities of MEJICONOS, AYUTUXTEPEQUE, CIUDAD DELGADO, SOYAPANGO, CUSCATANCINGO, and others.
- b. Among other objectives of the terrorists: all the military garrisons, presidential house the Ambassador of the United States, the headquarters of the political parties, etc.
- c. It is possible that this is part of the intention to destroy the national economy; the terrorists have expanded the following activities: burning buses, national vehicles, particular electrical installations, telephone installations, commerce and industry, etc.
- d. It is also considered that the terrorists have apparently directed their forces toward the metropolitan area, and their greatest objective is another; it could be: in the metropolitan area, they mentioned in literal "A"; in the area of Chalatenango, the destruction of the COLIMA Y ACELHUATE bridge; in the Cuscatlan area, there persists the danger of attacks on the cities of SUCHITOTO and SAN MARTIN and villages to the south and southwest of those places, in the San Vicente area, the INTIBOA, CUSCATLAN and FENADESAL bridges, and SAN LORENZO dam besides any population of the department of San Vicente, or of La Paz, likewise they could succeed with the population of the areas in the departments of: USULUTAN SAN MIGUEL, LA UNION and MORAZAN. In the case of the latter, there persists danger toward the populations of: SAN ROSE DE LIMA and SAN FRANCISCO GOTERA.

3. RECOMMENDATIONS:

- a. Alert all the military units, especially by the metropolitan area, from this date, plan courses of action in the direction to orient their forces so as to develop intensive and continuous patrols in the whole metropolitan area and the outskirts.
- b. Reinforce the security and vigilance of the terrorists profitable objectives that were mentioned in the second paragraph.

- c. Increase the pressure to subdue the terrorists at the national level with the end of (?---?) permitting the possibility of reorganization, especially operations in the urban and suburban area of the metropolitan 20, as well as north of the departments of San Salvador and Cuscatlan.
- d. Possibly, arrange to extend for a prudent time for the process of amnesty. We have observed that during this period the people have been more vigilant of terrorists; they had not been permitted the opportunity to reorganize their staff toward the conclusion of their objectives. This, of course, encourages the flight of terrorists at the national level.
