| N        | Child   | Malaria                                 | 30         | 47.3%           |
| N        | Child   | Measles                                 | 24         | 38.9%           |
| N        | Child   | Meningitis                              | 30         | 40.0%           |
| N        | Child   | Other Cardiovascular Diseases           | 31         | 10.7%           |
| N        | Child   | Other Defined Causes of Childhood Death | 31         | 60.0%           |
| N        | Child   | Other Digestive Diseases                | 33         | 36.3%           |
| N        | Child   | Other Infectious Diseases               | 28         | 36.5%           |
| N        | Child   | Pneumonia                               | 35         | 55.4%           |
| N        | Child   | Poisonings                              | 39         | 75.2%           |
| N        | Child   | Road Traffic                            | 34         | 86.8%           |
| N        | Child   | Sepsis                                  | 37         | 7.4%            |
| N        | Child   | Violent Death                           | 30         | 100.0%          |
| N        | Neonate | Birth asphyxia                          | 167        | 85.1%           |
| N        | Neonate | Congenital malformation                 | 170        | 53.6%           |
| N        | Neonate | Meningitis/Sepsis                       | 171        | 35.1%           |
| N        | Neonate | Pneumonia                               | 149        | 20.8%           |
| N        | Neonate | Preterm Delivery                        | 171        | 77.9%           |
| N        | Neonate | Stillbirth                              | 187        | 86.6%           |

**Supplementary Table 2. Map of ICD-10 codes to cause groups.**

| ICD-10 | ICD-10 name                                                                      | Cause group                  |
|--------|----------------------------------------------------------------------------------|------------------------------|
| A00    | Cholera                                                                          | Diarrheal diseases           |
| A02    | Other salmonella infections                                                      | Diarrheal diseases           |
| A03    | Shigellosis                                                                      | Diarrheal diseases           |
| A04    | Other bacterial intestinal infections                                            | Diarrheal diseases           |
| A05    | Other bacterial foodborne intoxications, not elsewhere classified                | Diarrheal diseases           |
| A06    | Amebiasis                                                                        | Diarrheal diseases           |
| A06.4  | Amebic liver abscess                                                             | Diarrheal diseases           |
| A07    | Other protozoal intestinal diseases                                              | Diarrheal diseases           |
| A08    | Viral and other specified intestinal infections                                  | Diarrheal diseases           |
| A09    | Infectious gastroenteritis and colitis, unspecified                              | Diarrheal diseases           |
| E86    | Volume depletion                                                                 | Diarrheal diseases           |
| E87    | Other disorders of fluid, electrolyte and acid-base balance                      | Diarrheal diseases           |
| A31    | Infection due to other mycobacteria                                              | HIV/AIDS                     |
| B20    | Human immunodeficiency virus [HIV] disease                                       | HIV/AIDS                     |
| B20.0  | HIV disease resulting in mycobacterial infection                                 | HIV/AIDS                     |
| B21    | Human immunodeficiency virus [HIV] disease resulting in malignant neoplasms      | HIV/AIDS                     |
| B22    | Human immunodeficiency virus [HIV] disease resulting in other specified diseases | HIV/AIDS                     |
| B23    | Human immunodeficiency virus [HIV] disease resulting in other conditions         | HIV/AIDS                     |
| B24    | Unspecified human immunodeficiency virus [HIV] disease                           | HIV/AIDS                     |
| B36    | Other superficial mycoses                                                        | HIV/AIDS                     |
| B37    | Candidiasis                                                                      | HIV/AIDS                     |
| B39    | Histoplasmosis                                                                   | HIV/AIDS                     |
| B42    | Sporotrichosis                                                                   | HIV/AIDS                     |
| B44    | Aspergillosis                                                                    | HIV/AIDS                     |
| B45    | Cryptococcosis                                                                   | HIV/AIDS                     |
| B49    | Unspecified mycosis                                                              | HIV/AIDS                     |
| B58    | Toxoplasmosis                                                                    | HIV/AIDS                     |
| B59    | Pneumocystosis                                                                   | HIV/AIDS                     |
| C46    | Kaposi's sarcoma                                                                 | HIV/AIDS                     |
| D84    | Other immunodeficiencies                                                         | HIV/AIDS                     |
| A70    | Chlamydia psittaci infections(Psittacosis)                                       | Lower respiratory infections |
| I00    | Rheumatic fever without heart involvement                                        | Lower respiratory infections |
| J02    | Acute pharyngitis                                                                | Lower respiratory infections |
| J09    | Influenza due to certain identified influenza viruses                            | Lower respiratory infections |
| J11    | Influenza due to unidentified influenza virus                                    | Lower respiratory infections |
| J12    | Viral pneumonia, not elsewhere classified                                        | Lower respiratory infections |
| J13    | Pneumonia due to Streptococcus pneumoniae                                        | Lower respiratory infections |
| J14    | Pneumonia due to Hemophilus influenzae                                           | Lower respiratory infections |
| J15    | Bacterial pneumonia, not elsewhere classified                                    | Lower respiratory infections |
| J16    | Pneumonia due to other infectious organisms, not elsewhere classified            | Lower respiratory infections |
| J18    | Pneumonia, unspecified organism                                                  | Lower respiratory infections |
| J20    | Acute bronchitis                                                                 | Lower respiratory infections |
| J21    | Acute bronchiolitis                                                              | Lower respiratory infections |
| J22    | Unspecified acute lower respiratory infection                                    | Lower respiratory infections |
| J24    | There is not this code in ICD10 site, but we have this in mortality data         | Lower respiratory infections |
| J27    | There is not this code in ICD10 site, but we have this in mortality data         | Lower respiratory infections |
| J28    | There is not this code in ICD10 site, but we have this in mortality data         | Lower respiratory infections |
| J31    | Chronic rhinitis, nasopharyngitis and pharyngitis                                | Lower respiratory infections |
| J33    | Nasal polyp                                                                      | Lower respiratory infections |
| J36    | Peritonsillar abscess                                                            | Lower respiratory infections |
| J38    | Diseases of vocal cords and larynx, not elsewhere classified                     | Lower respiratory infections |
| P23    | Congenital pneumonia                                                             | Lower respiratory infections |
| R05    | Cough                                                                            | Lower respiratory infections |
| B50    | Plasmodium falciparum malaria                                                    | Malaria                      |
| B50.0  | Plasmodium falciparum malaria with cerebral complications                        | Malaria                      |
| B51    | Plasmodium vivax malaria                                                         | Malaria                      |

Aim 2 Supplementary Tables

| ICD-10 | ICD-10 name                                                                     | Cause group                 |
|--------|---------------------------------------------------------------------------------|-----------------------------|
| B52    | Plasmodium malariae malaria                                                     | Malaria                     |
| B53    | Other specified malaria                                                         | Malaria                     |

| W20    | Struck by thrown, projected or falling object                                                  | Other unintentional injuries |
| W21    | Striking against or struck by sports equipment                                                 | Other unintentional injuries |
| W22    | Striking against or struck by other objects                                                    | Other unintentional injuries |
| W23    | Caught, crushed, jammed or pinched in or between objects                                       | Other unintentional injuries |
| W24    | Contact with lifting and transmission devices, not elsewhere classified                        | Other unintentional injuries |
| W25    | Contact with sharp glass                                                                       | Other unintentional injuries |
| W26    | Contact with knife, sword or dagger                                                            | Other unintentional injuries |
| W27    | Contact with nonpowered hand tool                                                              | Other unintentional injuries |
| W30    | Contact with agricultural machinery                                                            | Other unintentional injuries |
| W31    | Contact with other and unspecified machinery                                                   | Other unintentional injuries |
| W32    | Accidental handgun discharge and malfunction                                                   | Other unintentional injuries |
| W33    | Accidental rifle, shotgun and larger firearm discharge and malfunction                         | Other unintentional injuries |
| W34    | Accidental discharge and malfunction from other and unspecified firearms and guns              | Other unintentional injuries |
| W36    | Explosion and rupture of gas cylinder                                                          | Other unintentional injuries |
| W37    | Explosion and rupture of pressurized tire, pipe or hose                                        | Other unintentional injuries |
| W39    | Discharge of firework                                                                          | Other unintentional injuries |
| W40    | Explosion of other materials                                                                   | Other unintentional injuries |
| W44    | Foreign body entering into or through eye or natural orifice                                   | Other unintentional injuries |
| W45    | Foreign body or object entering through skin                                                   | Other unintentional injuries |
| W46    | Contact with hypodermic needle                                                                 | Other unintentional injuries |
| W49    | Exposure to other inanimate mechanical forces                                                  | Other unintentional injuries |
| W50    | Accidental hit, strike, kick, twist, bite or scratch by another person                         | Other unintentional injuries |
| W51    | Accidental striking against or bumped into by another person                                   | Other unintentional injuries |
| W54    | Contact with dog                                                                               | Other unintentional injuries |
| W55    | Contact with other mammals                                                                     | Other unintentional injuries |
| W56    | Contact with nonvenomous marine animal                                                         | Other unintentional injuries |
| W57    | Bitten or stung by nonvenomous insect and other nonvenomous arthropods                         | Other unintentional injuries |
| W58    | Contact with crocodile or alligator                                                            | Other unintentional injuries |
| W59    | Contact with other nonvenomous reptiles                                                        | Other unintentional injuries |
| W60    | Contact with nonvenomous plant thorns and spines and sharp leaves                              | Other unintentional injuries |
| W64    | Exposure to other animate mechanical forces                                                    | Other unintentional injuries |
| W75    | Accidental suffocation and strangulation in bed                                                | Other unintentional injuries |
| W76    | Other accidental hanging and strangulation                                                     | Other unintentional injuries |
| W77    | Threat to breathing due to cave-in, falling earth and other substances                         | Other unintentional injuries |

Aim 2 Supplementary Tables

| ICD-10 | ICD-10 name                                                                                             | Cause group                  |
|--------|---------------------------------------------------------------------------------------------------------|------------------------------|
| W78    | Inhalation of gastric contents                                                                          | Other unintentional injuries |
