Dear Sir

Japanese NGO, MIVN(Mainichi International Volunteer Network) will hold a sketch festival on December 27 this year.

We have often seen that Cambodian children couldn't afford to draw picture because they don't have enough sheets of drawing paper and tools as a result of long domestic wars.

We, however, believe that they can draw pictures very well if they have chances. We'd like to see Cambodian children draw pictures freely with thick strokes. Model is an elephant. Elephant, above all, is a symbol of peace in Buddhism.
