The diagram shows a white rectangular area. On the left side, there is a gray circular region. Inside this gray region, there is a vertical black line segment. To the right of the gray region, a vertical dashed red line extends from the top to the bottom of the diagram, separating the gray region from the rest of the white space.

The plot area is mostly empty, with a vertical dashed red line positioned near the right edge. A grey shaded region is located at the bottom right corner, near the intersection of the dashed line and the x-axis.

The figure shows a blank coordinate system. A vertical dashed red line is positioned at the far right edge of the plot area. In the bottom right corner, there is a cluster of four gray circles of varying sizes, with the largest circle being the most prominent.
