Subject Bison Instruments Training Course

I have reviewed the proposal from Bison Instruments and find it to be acceptable. The three-day course is the one that we want.

The PNL staff members who will be participating in the class are available during the last week of July and the first three weeks of August. As far as I am concerned, Bison can choose the dates within this time period that would best fit their schedule.

I am now compiling some information to send to Bison concerning the site's geology and hydrology. I will send this information to you by the end of June.
