Dear Mr. Ellgas:

Enclosed are the following items:

- A well location map
- The Hanford Ground-Water Program Plan
- The ground-water portion of the Master Schedule
- A listing of various well information
- A printout of all tritium data on wells at Hanford.

I could not locate the Computer Science Corp. publications. If you can find a document number of some type, my luck might improve.

Good luck on your project.

Very truly yours,

Paul A Eddy
