To All Directory Holders:

PLANT DIRECTORY CHANGE

The Plant Directory format has been revised. The Organizational Sections of the Department Of Energy and its Hanford contractors reflect only listings to the third or fourth level of management.

An enhanced General Classification Listings section reflects Service Listings requested by the Department Of Energy and its contractors.

Two new dividers for your Directory will soon be distributed, they are listed below:

1. Usage Instructions
2. General Classification Listing

Upon receipt of the above dividers, please destroy the divider tab which reads Instructions, General Lists. The information filed behind this tab should be filed as shown below:

Behind Usage Instructions Tab -
1. Access Codes and Service Listings
2. Usage Instructions

Behind General Classification Tab -
1. General Classification Listings

If you have any questions about the revised format or the new dividers, please call Ms. Frances O. Frick on 6-6988 or Mr. Terry L. Wentz on 6-6322.
