Paul,
Perhaps you can help Ken. I'm checking with some people here.
Thanks
Joe

Richland, Washington 99352

Dear Joe:

I received the enclosed flyer from the American Nuclear Society (L.A.) about the upcoming meeting at Caltech. It may be of interest to you or other nuclear waste subcommittee members. If I attend the meeting I will send you a brief abstract of the proceedings.

As a member of the AEG groundwater technical committee, I am working with Phil Smith on a national directory of groundwater law. If you come across any useful references to groundwater law for your area (e.g. state environmental protection or water use regulations), I would appreciate hearing about it.

Maybe we'll see you at the AEG annual meeting in San Diego.

Sincerely,

VTN CONSOLIDATED, INC.
