HANFORD ENVIRONMENTAL COUNCIL

October 28, 1982

Attendees:

R. B. Hall, WHC
L. J. Maas, HEHF
J. J. Dorian, UNC
P. E. Bramson, PNL
P. A. Eddy, PNL
H. A. Haerer, Rockwell
D. L. Uhl, Rockwell
J. E. Mudge, Supply System
D. R. Elle, DOE/RL-SQA
R. E. Austin, DOE/RL-SQA

The Environmental Council met on October 28, 1982. Those in attendance are listed above and the topics discussed are summarized below.

Fourth DOE Environmental Protection Information Meeting

Information concerning the finalized plans of the conference was distributed along with information concerning the Quality Assessment Program workshop to be held in conjunction with the conference. Participation and attendance of the conference and/or workshop by appropriate staff members was encouraged.

Function and Purpose of the Council

The activities of the Council were discussed in terms of past role and future direction. Also disucssed was the frequency of meetings. It was concluded that for present needs, a quarterly meeting seems more appropriate than monthly. The first of the quarterly meetings is scheduled for December 1, 1982, at 2:30 p.m. in 318 area, Trailer 3. Mr. Al Platt will discuss vitrification and a tour of the site will be conducted.

Inquiries Concerning Radioactivity Associated with the Hanford Site

Recently there have been inquiries concerning radioactivity in the Columbia River. D. R. Elle, DOE-SQA, would appreciate knowing about any of the inquiries.

Ted Austen for
D. R. Elle, Ph.D., Chairman
Hanford Environmental Countil
