From Chuck Cline CSC

Subject Geophysical Logging Rig

I would like to thank you for your help in the procurement and modification of the geophysical logging rig for Environmental Evaluations Section of the Occupational and Environmental Protection Department. The task has been long and tedious and sometimes difficult, however, your help is appreciated. Your efforts have expedited the transport of the rig to Canada for modifications. Again, I would like to thank you for the time spent on this project and I hope to work further with you in the future.
