Subject Monthly Report - September 1982

M. R. Quarders returned to work September 20, 1982 after being absent for five weeks.

Special river water samples were taken along the shoreline in the 100 B area vicinity. Fifteen locations were sampled two times, each sample was 2.5 gallons of water. Six special 100 area wells were sampled, each sample was 2.5 gallons.

Priest Rapids sampler was out of service due to maintenance on the unit at the dam. It is back in service as of September 21, 1982.

Hanford river sampler is back in service after having maintenance work on the motor.

Environmental Monitoring participated in a plant wide practice exercise, Operation Bravo, on September 24, 1982.

The Rockwell test wells that are on the no sample list, were not sampled this month. Battelle 699 wells were in good shape except for 699 14-E6, which is buried under WPPSS race track.
