Subject Monthly Report - June 1982

Program Management

- PA Eddy and CS Cline assisted LS Prater with the pumping test conducted for HEDL on an existing well at the FFTF site.

- Existing contract for the renovation of wells was extended to perform additional work to delineate the impermeable boundary near the Hanford Townsite.

- CS Cline has done major work on Program Management during June.

Quality Control

- PNL audit indicated a need for a QA plan from the USGS. Since the USGS is a federal agency, the request for such a plan is being routed through the DOE.

Analytical Services

- Routine Analysis are on schedule.

- "Less-Than" format being established.

Monitoring Services

- Routine sampling is on schedule.

Data Handling Services

- See CS Cline's Monthly Report for details.

Well Maintenance

- Additional funding allocated for extending drilling time - See CS Cline's Monthly Report for details.

Technical Services

- See CS Cline's Monthly Report for details.

Task 08

- Extensive work has been performed in order that trips to be taken during the field portion of this study can be performed with the minimum amount of inconvenience.
