Subject Monthly Report - June 1981

We have four new temporary summer type employee's this month. Bob Cushing, Tom George, Bill Jaquish and Nancy Sharnhorst. Bill and Nancy are doing pump tests and chem analysis on wells, Tom and Bob will be installing well poles and marking wells.

Performed a survey of tumbleweeds along Rt 4-S and around 200 E Area. No contaminated weeds were found.

A pump is burned out at Richland Raw sampler, so we plumbed into Richland, a city pump, for our raw water sample. Hopefully we can get water from it the year round. They may shut the pump down for about 2 months during the winter,

The new breed of Hanford wildlife were disposed of.

The following wells were not sampled, problems were reported to Ed Hilty.

699	S31-01	pump would not work
699	S06-E14	would not pump, possibly dry
699	08-32	pump would not work
699	14-E6S	dry
699	19-47A	dry
699	37-43	pump pulled a load but no water
399	04-01	meter on well
199	N-03	pump pulled a load but no water

DOE credit calls
Nothing to report
