Subject Monthly Report - April 1981

The 300 Area Columbia River Raw filter and Resin column and 300 Area sanitary integrated samples have not been collected this month due to water system being out of service. It is now back in service. Priest Rapids Dam raw water sampler was out of service part of the time due to maintenance on the units. It is also back in service.

We have our new road monitor truck so we are catching up on road monitoring using the old instrument. The new one is still being tested.

On April 6, M.R. Quarders and the Monitors changed working hours to 6:30 a.m. thru 3:00 p.m.

The following wells were not sampled for various reasons.

299W-18-07	pump not in water.
299W-18-10	pump not in water.
299W-22-30	well not marked, possibly welded shut.
299E-33-27	sampled and sediment reading 1000 c/m.
399-01-03	pump not in water (fixed).
699-35-70	pump would loose its prime (Ed Hilty was notified).

Several wells were bailed because pumps were pulled for logging.

We have a new milk location at Benton City. Don Truhlicka sold his cattle so we now get it from Ken Knight.

Monday, April 27, D.L. Merrill reported tools and electric impact wrench #S535106 missing from 3614-A building. This was reported to Dan Montgomery of Battelle Security.

On April 2, 1981, L.L. Belt attended a Readers Digest presentation party for Harold McClusky, the Atomic Man, at EDF.

S.R. Bivins and J.D. Harrison passed their coast guard boat safety test and received their certificates this month.
