Summary of Scheduled Corrective Actions (Cont'd.)

21DBH000 0

Number	Action	Date
26	Completed	--
27	None necessary	--
28	Discuss sampler design in annual report	CY-1981 Annual Report
29	Review validity of TLD fading correction factor	December 30, 1982
30	Improve background subtraction methods by UST	February 28, 1982
31	Review QC data reporting in annual report	CY-1981 Annual Report
32	Same as #31	--
33	Same as #31	--
34	Completed	--
35	None necessary	--
36	Plan a study for upgrading reporting of data uncertainties	March 31, 1982 (Budget Submittal)
37	(Pertains to Ground-Water Program)	--
38	State analytical lab for reported analyses	CY-1981 Annual Report
39	Review UST methods for establishing counter background	August 31, 1982
40	Evaluate need for chemical recovery data	March 31, 1982
41	See Comment #5	--
42	Expand discussion of river sampling	CY-1981 Annual Report
43	Consider including geometric mean/deviation in data tables	November 30, 1981
44	Begin assessing completely the doses from drinking water pathway	January 1, 1982
45	Consider commenting on ALARA in annual report	CY-1981 Annual Report
46	Reference site specific parameters in annual report	CY-1981 Annual Report
47	Consider increasing discussion of dose calculations	CY-1981 Annual Report
48	Review river water users	October 1, 1982
49	Develop criteria/evaluate sampling program	June 30/December 30, 1982
50	Completed	--
51	See Comment #5	--
52	See Comment #5	--
