Subject Route 4 Road Improvement Plan

Work to improve the Route 4 road will begin September 24, 1984. The improvements will include widening the roadway, resurfacing and stripping. Roadway signs will be removed for the widening and resurfacing and then reinstalled. Illumination (lighting) at intersections (Supply System and at FFTF) will be part of this project.

Construction will be accomplished in two phases. Phase I will start at the 1100 Area on September 24, 1984, and continue through the 300 Area and is expected to be completed on or before September 30, 1985.

Phase II will start when Phase I has been completed with completion expected by September 30, 1986.

Single lane, two-way traffic will occur during peak-hour traffic. Controlled traffic, with a maximum five-minute delay, will occur during nonpeak-hour traffic.
