Dear Phil:

As we discussed yesterday, I am enclosing the well water level data taken through August 17, 1984, under the BWIP-sponsored monitoring project. The measurements were made under the direction of T. L. Liikala and compiled by George Last. The data also will be incorporated as an appendix in George's status report on the monitoring project.

Please call me if you have any questions or need additional information.

Sincerely,

John
