Dear Mr. Youngblood:

I received your request for a copy of my paper for the Health Physics Society meeting. Unfortunately, I was unable to present the paper because of clearance problems. A short discussion focusing on the hydrological aspects of the study will be contained in the following report, which is scheduled for printing this month:

Prater, L. S., et al. 1984. Ground-Water Surveillance at the Hanford Site for CY 1983. PNL-5041, Pacific Northwest Laboratory, Richland, Washington.

I hope to publish a more detailed account of the study (containing both hydrological and radiological information) in the near future. I will keep your request in mind and let you know if the paper is published.

Sincerely,

Leigh S. Prater
