Subject Technical Review of Bids for Purchase Requisition J0921

I have reviewed the enclosed bids to determine whether they meet our technical requirements. The bid from Morrison-Knudsen is technically acceptable with the following exception. Our list of specified laboratory analyses included total organic carbon (TOC) and total organic halogen (TOX), neither of which appears on the list of analyses on Page 3, Section 2 of the bid. If this discrepancy is corrected, the Morrison-Knudsen bid will be acceptable.

I also consider the cost of the bid to be reasonable. A similar contract was completed for us in 1981 for approximately $8,800. Considering inflationary costs, I had estimated a price of about $12,000 for this contract, which is somewhat higher than the bid.

Please call me if you have any questions.
