Subject Staff Assignment Changes

Effective immediately, Roger Dirkes is assigned as Supervisor of Environmental Monitoring replacing Mel Quarders who is being given a new assignment as Administrative Specialist for the section.

The change is being made at this time to aid in implementing needed technical changes in monitoring which can best be managed by a technical person and to make Mel available to bring better order to the section's safety training and documentation. Additionally, Mel will continue to act as an expediter and administrator for monitoring equipment and facilities.
