Paul:

Mel says he will have an organics pump mounted this month. Will you please keep on him about it?

Re: modification of bailer pulley

Terry will be working on this while I'm gone. Steve Divine will help him if he needs it. Mel says we can make any changes we want as long as we pay for it; you know Mel. I told Terry to use Supp. Services if he had to, but as you can see, it's quite low on funds. Maybe you can talk to Mel or find something else to change it to?! Thanks.
