3/4" PVC - quick disconnect coupling on t
attached to casing

Advantages to placing Permanent
Air Lifts in Blower wells

1. Better representative sample (i.e saturation of hose from well to well)

2 Reduce chances of cross contamination of wells (Radioactive).

3. Saves time and [redacted] money!

4. reduce wear and tear on Truck And personnel @

5. eliminate safety hazard (having to physically handle hose sometimes as close as 6" From hydraulic hose reel.)

Dis advantage

1. have to pull Air Lift maybe once every 4-5 years for maintance.
2. ? expense cost PVC + disconnect

PAE-
Steve's list of advantages/disad. of putting PVC pipe in the P-tubes.
