In reply, refer to letter R84-0949

Mr. V. L. McGahn
Pacific Northwest Laboraotry
Richland, Washington 99352

Dear Mr. McGahn:

I would like to express my appreciation for the borehole geophysical logging that you have done over the past several months for Rockwell Hanford Operations' Basalt Waste Isolation Project. Your devoted effort has helped make the piezometer installation at borehole sites DC-19, DC-20 and DC-22 a success. I recognize that you spent many hours and much personal sacrifice to assure success in the endeavor. This work included many nights and weekends to complete work in a safe, technically sound, and expedient manner.

Very truly yours,

G. S. Hunt, Manager
Site Department
Basalt Waste Isolation Project
