Subject SUMMER EMPLOYMENT

Battelle will again participate in two summer employment programs which will be coordinated and paid for by the Equal Opportunity Office. Please notify us by April 18 which program you are interested in, the proposed assignment, and any skills/course work you expect the student to bring to the job.

Summer Research Apprenticeship Program (SRAP)

Contact: Pat Titzler - 375-2037

This program is for minority high school students over 16 years of age who are interested in science/engineering fields and have a background in math and science. Ten (10) students will be selected for the program with a stipend of $3.35 per hour/40 hours per week. The program will run from June 13 through August 24 (ten weeks).

Each student will be assigned to work with individual researchers four days of the week. The fifth day (Friday) will be spent exploring educational activities which supplement the actual on-the-job experience.

Youth Opportunity Program (YOP)

Contact: Michele Thielges - 375-3874

This program is designed to provide meaningful work experiences for young people from disadvantaged circumstances. The youth must be between the ages of 16 and 22. There will be eight (8) candidates for this program with a minimum wage of $3.35 per hour/40 hours per week. The program will run from early June through August. Hopefully, assignments will include technician, clerical, and service-oriented jobs.

We have had several outstanding performers in past years and hope to identify equally qualified candidates this summer. If you have any questions pertaining to these programs, please do not hesitate to contact one of us.
