To List II

From Fred C. Brown

Subject In House Staff Development Programs

I have accepted a position with a rapidly growing high tech company in Vancouver, Washington (SEH America, Inc.) to help develop their total Human Resources function. I have tendered my resignation to be effective March 16, 1984.

The Essentials of Management Series and all other in-house programs which I personally conduct will be cancelled until further notice. However, all other courses listed in the Calendar of In-House Staff Development Programs will continue as scheduled.

I have greatly appreciated my five and one-half year association with Battelle. I hope I have contributed as much as I have benefited from the relationship.

I wish you all continued success.
