Battelle
Pacific Northwest Laboratories

Project Number

Internal Distribution

Date 3/09/84

To PA EDDY

From Contract Services

Subject DOE - TD1847 "... Restoration Work at Hanford"
COMP-DATE 12/16/83

The completion date of the subject project has passed and appropriate action is necessary.

If the project has been completed notify your finacial rep and have them close the project out as soon as possible.

If the project is still active, then the completion date must be extended. This can be accomplished through a no-cost time extension authorization sent by your sponsor to RL. If further funding is expected very shortly the completion date can be extended on that authorization. Either way your sponsor should be notified and the extension requested.

This office will be contacting NRC on 3/19/84 to request no-cost time extensions on several projects. If you would like your project included in these requests please notify Susan Lawless by 3/16/84.

Any questions regarding the above should be directed to Susan Lawless on 375-2056, or Greg Turner on 375-2267.

For our own records we would appreciate it if you would complete and return the attached response sheet.
