SUBJECT: Preparation of FTP/A

I am in the process of preparing the FTP/A for the Environmental Protection Support and Assistance (EPSA) project for DOE, Office of Operational Safety. The project provides support to the OOS as part of its function of overseeing the environmental protection programs of the DOE field organizations. The EPSA project is a multidisciplinary program with subtasks currently in the following areas:

- Environmental and Effluent Monitoring Guides
- Quality Assurance
- Environmental Data Reporting
- Environmental Dose Assessment Methodology
- Environmental Summaries
- Ground Water
- Environmental Protection Information Meeting

I am asking for input from you on areas you feel we should be addressing, either as additions to current tasks or as new tasks. I would appreciate receiving any suggestions you may have by February 10. You can either send written suggestions or call me to discuss potential task areas.

Thank you for your assistance in this matter.
