Seattle	Central Campus, Campus Master Plan sites 14C and 16C. Site 14C is bounded by Stevens Way NE, Loew Hall and the Engineering Library on the west, the Facility Services Administration Building and the University Facilities Building and Annex 1 & 2 on the north, the Plant Operations Annexes 3 & 4 and Mason Road on the east and the Power Plant on the South. Site 16C is bounded by Stevens Way NE on the west, the Mechanical Engineering and Engineering Annex on the north, Mason Road on the east and More Hall on the south. Site 16C includes the More Hall Annex.	Site selection and construction of a new 130,000 gross square foot above and below grade building to create expansion space for education and research for the Computer Science and Engineering program. The structure will house new instructional space, undergraduate student spaces, research and educational labs, shops, offices and event space. For the purposes of environmental review, four alternatives are analyzed in the document: <u>Alternative 1</u> - Preferred Alternative - Development of CSE II Project on Site 16C of the Seattle Campus Master Plan 2003; <u>Alternative 2</u> - Development of the CSE II Project on Site `16 C of the Seattle Campus Master Plan 2003 and Retention of More Hall Annex (two design scenarios); <u>Alternative 3</u> - Development of the CSE II Project on Site 14C of the Seattle Campus Master Plan 2003 (two design scenarios); and, <u>Alternative 4</u> - No Action Alternative.
