Seattle	West Campus site bounded by University Way NE on the west, UW Police Station (under construction) on the north, an alley, the Church of Latter Day Saints and a Seattle City Light Receiving Station of the east and the Burke Gilman Trail and NE Pacific Street on the south.	The proposed building would be one story plus a partial basement. The roof contains essential equipment and has a screen wall. Including the roof, the square footage is approximately 19,000 gross square feet. The structure will include generators, chillers, cooling towers and associated equipment. When fully built-out, the plant will have capacity to produce 12 megawatts (MW) of emergency power and 6,000 tons of processed chilled water (PCW).	<p>Name: Jan Arntz Department: Capital Projects Office Address: University Facilities Building, Box 352205, Seattle, WA 98195-2205 Email: jarntz@uw.edu</p>	<p>Issued: April 10, 2015 Comments Due: April 23, 2015</p>	<p>Issued: Comments Due:</p>	<p>Issued: Comments Due:</p>		<p>Draft Issued: Comments Due:</p>		<p>Final Issued: Final Action Anticipated:</p>
