

## A) Training by Discipline

## B) Topical Focus Area

Figure 1. A) Percentage of entire network (522 total nodes) reported to have training in each discipline (red = natural science discipline, blue = human dimensions discipline, green = other disciplines) B) Percentage of entire network (522 total nodes) reported to focus on each topical focus area. It is important to note that focus area is not necessarily an indication of the individual's training (charts reproduced from Moore and Hoelting et al. in review).
