A sampler is a piece of stitchery covered with numbers, letters, and various designs that showcase the skill of the needleworker. It can also be a box of chocolates full of assorted candies to tempt the taste buds. Our concert is an American sampler brimming with appealing music drawn from the wide-ranging and dynamic American experience. There are gospel numbers, pioneer and cowboy songs, a Shaker tune, spirituals, folk songs from Canada and Cuba, early music from Revolutionary War America, and modern choral pieces just for women. Like a well-designed piece of embroidery may it please the senses and highlight the skill of the performers. And like a delectable box of chocolates may it leave you hungering for more.

UNIVERSITY GOSPEL CHOIR

Phyllis Byrdwell, Director

The term "Gospel" means good news. It is rooted in spirituals and hymns; but fused with blues, ragtime, jazz with a passion and energy of urban life. It is spontaneous and emotional and is said to be the musical expression of a unique spiritual sensibility. A person's whole self is immersed in the performance of this genre. The genre is an important part of the African American culture. There are kinds and styles within the genre that you will hear tonight...from ballad-type to a more up-beat call and response type. It is a participatory genre!
