Declaration

Up to this present time, Cambodian Freedom Fighters still continues and goes on its mission to liberate Cambodia from Communist Dictators and Vietnamese puppets, even some of its leaders were arrested and killed, but there are thousand and thousand leaders and commanders are preparing their mission to overthrow this communist government. The boiling anger rate of people power are up higher and higher, at the same time, its huge military forces and commanders who firmly decided not to let Hun Sen's puppets going on their investigation and arresting its leaders one by one. CFF are serving the will of people and moving along international law that was prepared to bring the communist criminal leaders such as Hun Sen, and genocidal groups to a trial at world court of justice.

Cambodian Freedom Fighters was founded and formed in a legality and born out from the bloodshed of innocent people. CFF is enforcing the law passed by US Congress to bring Hun Sen to a trial. We intend to arrest Hun Sen and his group in the near future. Hun Sen is a Vietnamese Puppet who practiced K-5 plan adopted by Vietnam that killed more 200,000 Cambodian lives from 1985 to 1988 called "the Wall of Bambo". CFF has all documents relating to Hun Sen's criminal activities against Humanity and Violation of Human Rights.

According to Hun Sen's statement in TV to arrest Cambodian American leaders of Cambodian Freedom Fighters abroad, It doesn't make any senses and it doesn't worry or frighten CFF leaders at all, since Hun Sen himself in return should be arrested and brought over to sentence at The World Court of Justice. The President of CFF informed and called on to all CFF commanders (Called Wild Tigers) and its second strategist team leaders in Phnom Penh and all provinces to be alert that we will overthrow this government in the near future since our military strength testing was successfully completed. We can occupy the National Defense and Interior Department for two hours in the heart of Phnom Penh Capital on 11/24/00 why we can not take over this weak, corrupted, communist government.

This government can be strong enough as long as they serve the will of people, by people and for people, if they are communist, corrupted dictators, and human right violators then they will be dead and faded away in the near future. 2001 Cambodia needs to change its leadership. Cambodian People do not want the criminal leaders to continue a nightmare and massacre in Cambodia.
