Dear Ben,

Thank you for attempting to find the contact information for the authors. It is fine to proceed without the authors' permission in this case since you were unable to find them and it is an older article. Let me know if you have any other copyright questions.

Best wishes,

Jamie Casey

CC: Customer Care (customercare@aps.org)

Dear Ben,

I am copying Customer Care, customercare@aps.org, on this reply to confirm what is needed on your part. They are most knowledgeable about the requirements in this area.

It may also be helpful to know that the institution information noted on the published paper as "Technical University of WrocJatv, Wybrzeze Wyspianskiego 27, 50-370 WrocEaw, Poland" appears to have changed years later to "Inst. of Physics Wroclaw University of Technology Wybrzeze Wyspianskiego 27 50-370 Wroclaw, POLAND".

Sincerely,

Kathleen Maggio

Hi Kathleen,

I have tried looking on the institutions website, but I cannot find the authors mentioned. Is there a way I could use the copyright/permission I have requested without obtaining permission from an author?

Thank you very much!

Best,
Ben

Hi Kathleen,

The title is "Semiempirical tight-binding band structure of II3V2 semiconductors: Cd3P2, Zn3P2, Cd3As2, and Zn3As2"

Thanks a lot!

Dear Ben,

When we need to reach a new author or referee but don't have their email address, we sometimes find this information when checking contact info provided on the homepage of their university or institution. Which APS published paper are you referring to?

Sincerely,

Kathleen Maggio

Hi Kathleen,

Quick Question. So I have gone through the copyright website and have requested a license to use 3 figures from a paper published in the journal Physical Review B. My license number is 4120360497842. I am just a little confused with the terms and conditions. The paper I want to reference is about 23 years old, so I am not sure if the lead authors are still active and how to go about getting there permission. Also, it requires that the paper DOI be in the area where the material appears and have it hyperlink to the paper. I am not sure how to accomplish this, due to the fact that a journal will be publishing this and I do not know how to alert them to make it a hyperlink to the articles.

Thanks again for all of the help.

Best regards,
Ben

Dear Benjamin,

Thank you for your email message. If you or your boss were an author on the paper you're referring to please refer to the APS Copyright Policies and FAQ, available at <http://journals.aps.org/copyrightFAQ.html>

If neither of you were authors on the paper you're referring to, you will need to permission to reuse APS content. Kindly go to the specific APS published article and click the "Reuse & Permissions" button, which is located on the right-hand side of the page. The "Reuse & Permissions" button is also located on separate images.

You will be redirected to Copyright Clearance Center's RightsLink service, where you can log in to your CCC account, create a CCC account, or you can select your option from the "I would like to..." dropdown.

I hope this is helpful to you. Please let us know if you have any additional questions.

Sincerely,

Kathleen Maggio
