TO: Jane Fitzgerald Nishimura

ATTN: Kathleen Hayes

Dear Kathleen:

The numbers for the bogus calls in San Diego are: 619-284-3788, 619-281-5778. If I were you I'd call these people up and pretend that you are some U.S. govt authority and threaten to deport them if they don't tell you who is calling them from Cambodia.

Could you also purchase a report from the IMF in D.C. Its called "IMF Economic Development of Cambodia." I'm not sure when it was published but I think it was earlier this year. It can be obtained for \$15 from: Public Services, Box X5400, IMF, Wash., DC, 20431. Tel: 202-623-7430.

Also, we are about to load the last toner cartridge as the current one reads "low toner." Are new cartridges cheaper in the U.S. than in Singapore? If so, can you bring one or two back or is that too much of an additional burden over what you will already be carrying? Let me know, so I can put in an order from Singapore if necessary.

Baildon came over and checked the power conditioner, says it is ok. We need to clean the air intake vents on the side as a next step, but JMK can't send anyone over just now and I don't want to carry the printer to their office. In any event we will need a replacement roller bar for the one with one of the three rubber rollers melted off. Its the roller bar just where the paper comes out of the printer, last one among others. You'd best try and get one in the U.S. although I'll try in BKK next trip too.

that's it for now. Hope you are well,
