

Sensory Experience Kit Deliverable

What's included:

The kit contains four themed booklets, a caregiver guide, and a sensory map on the back. Each booklet includes simple sensory-based activities designed to help children engage with nature through movement, touch, observation and so on. Activities are organized into three intensity levels—low, medium, and high—so families can choose what best fits their needs in the moment.

Set up:

The kits are set up in Zoomazium, alongside other sensory support materials. Families can pick one up and explore at their own pace. They will also be occasionally available at the zoo entrance to make it easier for more families to participate.

The kits are housed in Zoomazium with other sensory tools, and occasionally shared at the zoo entrance. Families can use them in zoomazium or explore in the zoo at their own pace. In the future, they could become part of the zoo's regular sensory offerings.

Design details:

Animals need a safe home to stay away from danger.

Look around—
where would they feel safe?

Gorilla Sloth bear Tiger

Homes

Tropical Asia
Tropical Rain Forest

Flap your arms!

Dodge left and right like the Andean cock-of-the-rock.

Land softly and chill like a bird.

yellow-rumped cacique

Jaguar

Let's take a deep breath together

Breathe in... Breathe out...

Take a Deep Breath

Temperate Forest

Find your balance
like a Chilean flamingo

Lift one leg or close your eyes
Stay still and feel the calm

Chill with Red Panda

Guide for Caregivers

What is this?

This set of booklets invites children to explore nature through **multisensory activities**, helping them maintain sensory balance during their visit at Woodland Park Zoo.

Sensory needs shift throughout the *day*—sometimes more input feels good, other times less is better. Nature supports focus, movement, and sensory balance, making Woodland Park Zoo a great place to explore. Yet, sounds, and busy spaces can feel both exciting and overwhelming.

How to Use This?

- Kids can choose activities based on the animals they visit, interested themes or their preferred sensory intensity (High, Medium, Low intensity).
- These four booklets offer a variety of multisensory experiences, with a special focus on **touch** and **balance & movement**.
- Caregiver support** is key to making the experience meaningful!

We hope this kit helps your family enjoy a fun and engaging visit at the Woodland Park Zoo!

Sensory intensity	High intensity	Medium intensity	Medium intensity	Low intensity
Animal exhibit	African Savanna	Penguin, Living Northwest Trail	Tropical Rain Forest, Tropical Asia	Temperate Forest
Animal	Lions, giraffe, gazelle	Penguin, river otter, brown bear	Andean cock-of-the-rock, yellow-rumped cacique, jaguar, gorilla, sloth bear, tiger	Red panda, Chilean flamingo
