Three words for guitar is a three movement work that is loosely based on the traditional format of two fast movements, Direction and Obliquity, and a central slow movement, Evanesce. As its name suggests, Obliquity diverges from being a straightforward fast finale. Its character is one of discovery. The first movement explores the many directions that a seven measure phrase can be extended. The slow movement consists of several variations of a simple melodic statement. My compositional objective was to create a highly evocative musical statement using limited compositional resources.

— Ciro Scotto

Music at the University of Washington

For over 125 years, aspiring musicians have come to the UW School of Music to polish their skills as performers and broaden their knowledge as students. It is a comprehensive music school with specialists on every instrument, and opportunities to study every musical discipline from jazz to opera and from ethnomusicology to music education.

The UW School of Music shares all the advantages of a small college and a large university. With approximately 350 students, the School of Music offers an intimate learning atmosphere; our faculty-to-student ratio in the School of Music averages one teacher for every seven music majors. At the same time, the University of Washington has over 33,000 students and is the largest university in the Northwest. Students at UW have all the advantages of attending a great university located in a major city, while benefitting from highly personalized teaching in their major fields. Members of the School of Music faculty are talented artist-teachers who enjoy national and international reputations in performance, music education, composition and music academics. Students receive weekly private lessons with a teacher who may have recently returned from an international tour, a studio recording session, a world-wide conference of scholars, or a weekend of performing before live audiences. Many of our faculty are regularly invited around the world to present clinics and give performances. Our students come to the UW to work and learn in a highly stimulating artistic environment.
