Diary 49 begins at the end of February, 1899. Joseph was at Basra, loading cargo "aboard the Blosse Lynch." In the diary’s first entry on February 28th, he noted that the Qajar prince "Abdulhussein Mirza Farman Farman Shahzade had booked passage to Baghdad" aboard the steamer. The prince and his extensive entourage had been exiled to Baghdad by his cousin, Shah Mozaffar-ad-Din, due to intrigues at court, in Tehran. However, Joseph did not record the details of Abdulhussein’s banishment. Instead, the prince seems to have been treated to all of the typical pomp afforded to a visiting royal. The Valid of Basra, Enis Pasha, the British and American consuls, and representatives of the Lynch Company and Hotz Hamilton and Company all came to pay the respect to the prince. His retinue reserved two First Class cabins and a number of deck tickets for the journey north. Before Joseph departed for Baghdad, Eliza’s son Rufail Sayegh came aboard the Blosse Lynch to call on him. He had been gone from his property at Gorna for several days and had to check in on it, but he promised his stepfather that if Eliza was truly determined to go to Paris to retrieve Alexander, he would accompany her there and back. (28 February 1899, 3-5)

The ship left Basra late the afternoon on the 28th, flying the Persian flag to honor their esteemed guest. Crowds of curious onlookers gathered on the banks of the Tigris at Kalat Saleh, Amara, and Coot to catch a glimpse of the prince. At each of their usual stops, Ottoman dignitaries and functionaries came out to greet Abdulhussein, and in the evenings he dined with Capt. Cowley while Joseph served as an interpreter. When the Blosse Lynch neared Ctesiphon, they made an unscheduled stop so that the prince could visit the famous arch. On the morning of March 4th, as they neared Baghdad, Abdulhussein sent for Joseph. He wished to give several kerans of gold to the crew and servants as tokens of his appreciation. The crewmen received three
kerans apiece, the servants four. Evidently, this was a paltry sum, as Joseph wrote in his diary: “What a mean and stingy man he is.” The prince also gave Captain Cowley a carpet “worth about 25 Beshlics” and envelopes with 5 1/4 Toomans in gold to all of engineers and officers. According to Joseph all of the engineers and officers save himself and Metty refused the gift. Joseph understood that it would have been rude not to take such an offering, but in private Captain Cowley ordered him and Metty to take their gifts and give them to the poor through the Latin Church. On the evening of March 4th, they landed at the Custom House in Baghdad, welcomed by a throng of people, including Baghdad’s head constable Mukhlas Effendi and Kader Pasha, aide-de-camp to the Vali of Baghdad. Along with the Persian Consul, Kader Pasha accompanied Prince Abdulhussein to the Persian consulate on the west bank of the Tigris. (1-4 March 1899, 5-13)

At home again, Joseph found a stack of letters waiting for him from Ibrahim Gejou, from Mr. Böhm, from Yousif Serpos all writing in response to his efforts to track down Alexander and bring him home. Alexander’s situation was still unclear. He could have been in Paris, or Istanbul, or Port Said as far as Joseph knew. After Joseph read through his letters, his wife Eliza came to him. News of Alexander had come through the grapevine. Eliza had spoken to Joseph’s sister Medula, who had been told by Mr. Richarz the German Consul that the Austrian Consul in Paris had written back to him in answer to the complaint about Alexander that they had cosigned in December. The Paris police had searched the addresses Joseph had provided but found no trace of Alexander. The Austrian Consul surmised that he must have stolen away to England somehow. He still had the 300 francs that Joseph had wired to him for Alexander’s travel expenses in his possession, and was asking what should be done with it. Joseph decided to leave the money with the consul, so that Alexander could be forced to go back to him if he needed to withdraw it. (4-6 March 1899, 13-18)

As late winter turned into spring, very little changed for Joseph. Life carried on as usual, with frequent trips from Baghdad to Basra and back. He continued to record a similar litany of complaints in his diary. In mid-March 1899, he wrote that “an awful confusion and a rush of passengers” at Kut “mostly Shia pilgrims on the annual pilgrimage to Karbala” prevented the Blosse Lynch from taking on coal there for over an hour. The following day, Joseph confided to the diary his fear that a month-long run of dry weather would harm the growing crops and lead to a spike in food prices. “Fortunately, rain came the next day, bringing some relief.” (16-18 March 1899, 32-5) On that rainy, muddy afternoon back in Baghdad, Joseph received a letter from a Rezooki Metchich. It was postmarked London and dated February 15, 1899. The letter stated that Alexander was in London, but Metchich did not tell Joseph what his son was up to in England because he feared that Alexander would get angry with him. (18 March 1899, 35) On March 21, Joseph requested that Mr. Richarz write to the Austrian consul in Paris once again, to have him inform his colleague in London of the situation with
Alexander. (21 March 1899, 38) Thanks to the rain and flood tides, Joseph recorded that the Tigris had risen 12 feet over the course of several days. While this normally would have been a happy occasion that would have eased the difficulties of navigation that had plagued river traffic for months, the rise in flow was so sudden that it threatened the Bridge of Boats that connected Baghdad to its burgeoning suburbs on the western bank of the Tigris. The Ottoman authorities cut open the bridge, but nevertheless several of the boats were swept away by the current. The river continued rising several more feet the next day. (22-23 March 1899, 38-40)

In late March, the diary provides a potent reminder that seemingly quotidian as it may have been Joseph’s profession was still a dangerous one. After arriving at Basra on March 27, he wrote: "Our Fireman Shabo ibn Franso while he was working the starboard wheel fell in the river and struggled and cryed until he got to opposite my cabin under the sponsoon and sunk and disappeared not knowing how to swim and the Barge being close alongside the steamer so no help could be rendered immediately expecting him to drift down to the ship’s stern but he got drowned the whole crew were gathered to his rescue but they failed; he was an old servant in the service for about 15 years." (27 March 1899, 46-7)

Returning to Baghdad, the Blosse Lynch passed the British Residency’s yacht the Comet going south on March 29th. She was carrying Major Melville, who had served as the acting Consul in the absence of Col. Loch. Loch, according to Joseph, was in Basra on his way back to his post in Baghdad. (29 March 1899, 51) In Baghdad, Joseph found his wife Eliza as she had been for ten days. In the time since he had left, there had been no letters and no news from Alexander. Thought Joseph was suffering from the same stomach ache that plagued him on and off throughout the years, he and Eliza made a point to attend Good Friday services at the new Chaldean Cathedral, which had been completed the previous spring (see Diary 47). (31 March 1899, 54) On Easter Sunday, Joseph and Eliza went to the Latin Church at 8 am, and spent the rest of the day calling on their friends and family in the Baghdadi Christian community. It was an exhausting day, Joseph wrote: "I called on 33 houses, and came very tyred and knocked up." (2 April 1899, 55-6)

Around the turn of the century, the telegraph line between Baghdad and Basra was a constant target of raids by local Arab tribes. Such raids disrupted the constant communication that provincial administration and business was coming to depend on, and undercut the authority of the local Ottoman government. In April 1899, Joseph recorded that the Blosse Lynch "landed a young Jew" employed by the telegraph office a few hours downriver Sheikh Saad. The telegraph line had been cut by members of the Beni Sudd tribe of Arabs, all followers of Hassan el Khayoon. The young Jewish man was there to forward "foreign telegrams to passing steamers so that they could” be sent to Basra. (8 April 1899, 66)
In a vague entry in mid-April 1899, Joseph wrote that Enis Pasha, the Vali of Basra, had come inquiring about passage aboard the Mejidieh. As Joseph recorded nearly a year earlier in Diary 47, Enis had been appointed as the Vali of Basra in the face of numerous protests from the British and French governments. He had previously been the Vali of Diyarbakir during the Hamidian Massacres of Armenians in 1896. Evidently, the British had lobbied heavily through diplomatic channels to have him removed from his office. Joseph wrote: "His dismissal is attributed to some English policy." At the same time, his replacement, Hamdy Pasha, was traveling down to Basra aboard the Ottoman steamer Ressafah. Hamdy Pasha landed at Basra "late at night" without the usual fanfare of a new governor's appointment. (9 April 1899, 70-3)

In the busy season around the pilgrimage to Karbala, Joseph complained that the Blosse Lynch was taking on too many passengers. He rained derision on the Arab Shia pilgrims that had come up from Bahrein and Hassa. There were 409 in all, but most of them bought the cheapest available tickets and slept on the deck of the ship. Joseph wrote: "they pack very thick and close and very little baggage, had there been any Persians or Basreh and Baghdad people, the deck would not have sufficed to such people." Later, as they picked up more pilgrims at al-Kut, he wrote: "Crowd of passengers came and they put up anywhere down on the lower deck an awful confusion; No head or tale we are full everywhere; there is no limit as rule on board, passengers can come and do what they like, there is no discipline, money making is the rule of the day." The rest of the crew seemed frustrated with the Bahreini passengers as well. A group of passengers offered Captain Cowley 100 rupees for a chance to stop and visit the ruins of the Arch of Ctesiphon. After an hour, Cowley took the money and left nearly half of the passengers on the shore. Before long, he developed a conscience and returned to the river bank to pick them up. (12-15 April 1899, 75-81)

Back in Baghdad in mid-April 1899, Joseph was called upon by Bedri Bey, a Turkish employee of the Museum of Antiquities in Istanbul. Apparently, Joseph’s passion for archaeology had preceded him, and Bedri Bey stopped to visit him on his way from Istanbul to Hillah, where he was to join a German team excavating the site of ancient Babylon for the Museum of Berlin. (18 April 1899, 84-5) The following week, the Blosse Lynch was transporting Ahmed Pasha Zheir, son of Kassim Pasha Zheir. Ahmed Pasha had been detained in Istanbul on the order of the Sultan for more than 15 years, and was coming via Aleppo under Ottoman surveillance on a 3 month furlough to visit his family in Iraq. He was traveling under the watchful eye of one Noori Beg. At Amara they were greeted by the Pasha’s brothers, Abdulmohsen and Abdulaziz, as well as his cousin Eassa Cheleby. Evidently, Ahmed Pasha was of some importance, as he was met with fanfare by many people at Gorna, including representatives from one of the Lynches competing firms, Gray MacKenzie. (21-23 April 1899, 90-6)
Later in April, Joseph once again returned to his wife Eliza in Baghdad to find that she hadn’t received any news from Alexander. From London, Rezooki Korkis had written to his brother Yousif. Rezooki had been searching for Alexander, but had not been able to find him. The rumor on the streets of London was that Alexander had left for America. Yousif wrote back imploring Rezooki for more information. No answer came after five days, and Joseph and Eliza remained in a perpetual state of worry. (29 April 1899, 108-9) In early May, Joseph recorded an update on Anis Pasha, the disgraced Vali of Basra. Three years after aiding and abetting the massacre of Armenians in Diyarbakir, Anis Pasha had become politically toxic in Istanbul. Joseph wrote: "[He] will not be appointed Waly anywhere. the Powers must have pressed their influence on the Sultan to have him dismissed from his functions." (5 May 1899, 119-20)

On the morning of May 6, Joseph went to visit Yousif Korkis in his khan. That morning Yousif received a telegram from his brother in London confirming that he had been unable to find Alexander there. Rezooki suspected that Alexander had indeed gone to America. Joseph, for his part, seems to have taken this news in stride while visiting Yousif. Though he often confided to his diary when he was distraught over his son’s behavior, in this entry he simply notes that he left Yousif’s khan to take breakfast before returning to the Blosse Lynch to load cargo. That night, however, he wrote: "We are very sorry and disappointed at Alexander’s behavior with us; he never writes or let us know where he is, he is showing great savageness and ungreatfulness toward his father and mother." (6 May 1899, 121-3)

On May 14, the Blosse Lynch picked up a French civil engineer by the name of Monsieur Chavenise. The engineer was tasked with excavating the Old Naharwan canal, which ran from the Diyala river above Baghdad to the Tigris well below Aziziye. The intention in excavating the canal was to divert high water away from the Tigris if necessary, though with Joseph’s constant complaints about the difficulties of navigation it hardly seemed that such a precaution was necessary. Unfortunately for the project, Chavenise fell ill in the desert in the midst of his survey. He was forced to return to Baghdad aboard the Blosse Lynch. (14 May 1899, 139)

On May 16th, Joseph heard good news from his nephew Artin. He was to be betrothed to the daughter of Dr. Cazassian, an Armenian physician in the Ottoman military. The happy occasion was scheduled to take place on May 23rd, in a week’s time. (16 May 1899, 142) As the month of May dragged on, there continued to be no word from Alexander. Returning from Basra, Joseph never found any letters or telegrams from his son. Even Rezooki had stopped sending updates. There was nothing for him to report. Though Joseph’s sour mood persisted, he remained engaged in the social life of Baghdad. With Artin, he called on Monseigneur Altmayer to celebrate his 25 years serving the local Catholic community. Several days earlier, while Joseph had been away aboard the Blosse Lynch, all the Europeans and foreign Consuls attended a
jubilee in the Archbishop’s honor. For entertainment, the French nuns presented a play dramatizing the Book of Esther. At the same time, he continued his habit of noting the coming and going of important officials. Kuchuk Namik Pasha came to replace Atta Allah Pasha as Vali of Baghdad, and Atta Allah left by the desert route to Deir az-Zor and Aleppo. (17 May 1899, 143)

With no news from Alexander abroad, a new family drama unfolded in Baghdad. When Joseph arrived home from Basra in late May, Eliza told him scandalous news involving Artin. Just a few days after his betrothal to the daughter of the Armenian Dr. Cazassian, Artin was accused of all manner of sexual and romantic impropriety by a sixteen-year-old Assyrian girl named Zekky from Tel Kayf, a town north of Mosul. She had been in the employ of Artin’s brother Johny as a servant to care for his baby daughter, and alleged that Artin had come to her two months earlier and promised to marry her. According to her story, she acquiesced and Artin used the occasion to take advantage of her before going back on his promise. Zekky became pregnant, and as an unmarried girl had to abort the pregnancy. Now, however, she was pressing her case at the instigation of other women of bad repute, according to Joseph arguing that under Ottoman law, Artin should have to take her as his wife. Artin protested and was arrested by the Ottoman authorities. He was being held in the prison at the Ottoman saray on the east bank of the Tigris pending an investigation. For the sake of his nephew’s troubles, Joseph slept not a wink that night. (29 May 1899, 168-70)

The following morning, Joseph woke to find two letters about his own troublesome son. The first was from his old Lynch Company colleague Tom Blockey, who now lived in London. Blockey couldn’t be sure, but he had heard that Alexander had gone to America with Marie Derisbourg in tow. The second letter confirmed what Joseph had suspected for weeks now. Rezooki Metchich in London had forwarded Joseph a letter written to him by Alexander. It was postmarked April 15th from Chicago, and contained Alexander’s business card billing himself as "Traveller Explorer, and reporter to many newspapers and magazines." Alexander was apparently traveling around America as a "Member of the Geographical Society," and he left no return or forwarding address. (30 May 1899, 171-2)

Joseph had little time to ponder Alexander’s actions, though. Artin’s imprisonment hung like a pall over the entire family. Johny had tried to enlist the services of a lawyer by the name of Abduljebbar, but Joseph wrote: "this man seems not so inclined to defend Artin." Abduljebbar’s intercession might not have even been necessary. The authorities called a number of witnesses to the saray, so many in fact that their testimony could not all be taken in one day. The morning of May 31st, Joseph was called to the saray to speak to his friend the Court Inspector Hamdy Bey. Ultimately, Joseph’s testimony was not required. Artin was released on bail. In all, the incident had cost Artin 50 Turkish Lira in official fees and bribes. (31 May 1899, 172-7)
The early weeks of summer dragged on without any news from Alexander in America. Life continued much as usual. Colonel Loch, the British consul who had replaced Mockler in 1897, had served a short stint in Baghdad that was now coming to an end. In early June 1899, he was transferred to Nepal. Before leaving Iraq, Loch held an auction of all his kit at the British Residency. Joseph purchased one of the Colonel’s bookshelves for just over 12 rupees. Later, when the the Blosse Lynch passed the Comet carrying the outgoing consul to Basra, Joseph wrote that Loch’s departure “was of great regret as he is very much liked by all the Europeans in Baghdad.” (2-9 June 1899, 179-90)

Joseph continued writing of the vicissitudes of the weather, notable passengers and cargo, and so forth. In mid-June, Joseph heard from the Sanitary Officer of Basra that the plague, which had been raging at Bombay and Muscat, had come to Bushire in Persia. The Persian government had established a quarantine at Bushire, and Joseph implicitly worried that the disease might spread to Basra. (13 June 1899, 197) Later that month, Joseph went with Artin to the home of Dr. Cazassian, the father of his fiancée. The Cazassians were Armenians from Istanbul. They had come to Baghdad four years earlier, on Dr. Cazassian’s assignment with the Ottoman army. Of his nephew’s fiancée, Serpohy, Joseph wrote: “I found the girl intelligent, jolly, but not some handsome she is about 18 years old; speaks French, Armenian, Turkish, and Arabic, she learnt French here at the French nuns school; and plays Piano.” (16 June 1899, 200-1)

Returning to his home from visiting the Cazassians, Joseph ran into Ibrahim Gejou on the street. Gejou had returned to Baghdad from Paris several days earlier, after a month and a half of travel through Beirut, Damascus and Deir al-Zor. “I reproached him for not coming to see us before anybody else,” Joseph wrote. He made arrangements for Gejou to come after breakfast to debrief him and Eliza on Alexander. Gejou assured them both that Alexander was still in London, not gallivanting about America as he and Rezooki Metchich had claimed. He explained that most of Joseph and Eliza’s suspicions about Alexander’s lies were true: He was never ill, he never had sore eyes that needed medical attention, Marie had indeed gone with him to Vienna, and he had only been in such dire financial straits because he spent all his money on lavish excesses such as carriage hires. (16 June 1899, 201-2) There was little time for Joseph to ruminate on his son’s misdeeds before he left again for Basra, though.

Steaming down to Basra, Joseph noted that Pere Emmanuel was going down with them to catch a steamer to plague-ridden Bushire. The epidemic had left the Christians in that city without a priest, and the Carmelite father volunteered to tend to the flock. (18 June 1899, 206-7) On June 18, 1899, Joseph heard that word had come from Istanbul to the Ottoman governments in Baghdad and Basra that the Lynch Company could once again begin towing barges. Evidently, the Lynches in Britain had been able to successfully negotiate for that privilege, which had bedeviled them so much a decade and a
half earlier. The decision came suddenly, and there was very little extra cargo waiting at Basra for the company to ship. As the Blosse Lynch passed the Khalifah going north, Joseph noted that it was towing an entirely empty barge. (18 June 1899, 207-8)

In late June, it seemed the affair with Artin and the servant girl Zekky had not yet been finished. On the 29th, Joseph wrote that Artin had been called to trial once again. His judgment would be given in just a few days. Joseph was disgusted with the community’s reaction to the case: “His case has caused great talk and scandal in town and especially among the Christians who are all against him as it is generally the case with such brutes and only seek to break one another’s neck.” (27 June 1899, 221-2) The next several days surely were tense as the family awaited Artin’s trial and judgment. Joseph’s sister Eliza was in an especially "Great way" over her son. (30 June 1899, 225) The trial was held at the saray on July 1. Joseph did not witness it; he spend the day tending to business aboard the Blosse Lynch. Artin was tried before a panel of judges consisting of the “Reys el Jeza” and his two deputies Abdulla Effendi Farhat and Rashid Effendi. Also present were the Moawen an adjunct to the court and Abduljebbar, Artin’s lawyer. After several hours of deliberation the Reis and his deputies rendered their judgment on Artin. Much to Joseph and the rest of the family’s relief, he was acquitted and released. (1 July 1899, 226-7)

The evening of July 1, Joseph returned home to find his brother-in-law Antone Marine. Antone had with him an issue of the illustrated London paper “The Sketch,” which featured a photo taken by Colonel Mockler and a bird’s eye view of Baghdad along with some words about the city. Joseph and Antone surmised that Alexander, without a regular remittance from his father, had turned to journalism to make ends meet, just as his card had said in the letter allegedly written from Chicago. (1 July 1899, 227) A few days later, on July 7, Joseph remarked that it was the day of Alexander’s 21st birthday. Acknowledging that Alexander had reached the age of majority, Joseph nevertheless lamented: "he is still at large and we do not know where he is but most likely he is still in London, his foolish behaviour toward us causes us great grief and sorrow, and we do not know when he is going to come to his senses and return to his father and mother.” (7 July 1899, 237-8)

Later that night, the Blosse Lynch had another close encounter with a "Native Boat." At about 9:30, as they were steaming up from Basra, they struck a boat sailing downriver. The impact damage the port side of the Blosse Lynch, smashing part of its wooden hull above water, and bending the iron frame. In writing, Joseph castigated the men on the bridge for their carelessness. The offending crew members were the ship’s new Second Mate, Mr. Smart, and the steersman Selman, brother of the pilot Mahmood. By Joseph’s calculation, Selman was "a stupid and ignorant man who the captain tolerate[d] for his brothers sake.” Fortunately, there was little damage to the other boat, and the
Blosse Lynch was in no immediate danger of taking on water. (7 July 1899, 241)

On July 15, Yousif Korkis brought Joseph a letter forwarded by his brother Rezooki in London. It was from Alexander, addressed to Eliza, and written in Arabic. Alexander did not state when or where he had written the letter, but let loose with complaints at his father and mother. "He is very angry why I accused him to the Austrian Consulate in Paris," Joseph wrote, "he says he is in America and he is making his livelihood and gaining about 500 Beshlics per month, and he hopes of seeing us one day." (15 July 1899, 257-8)

In mid-summer, the low waters of the Tigris bedeviled the Blosse Lynch just as they had been doing for months. Steaming up and down the river was a monotonous process of running upon a shoal, dropping anchor and sounding for a deep enough channel to navigate. The constant striking on the bottom took its toll on the steamer itself, forcing the men to make repairs and compounding the delays they faced. Often, with low water, the crew would have to heave over shoals and sandbars in order to make any progress whatsoever. Joseph recounted a typical vexing upriver passage by al-Kut in late July. A stretch of barely four miles took more than 24 hours to traverse:

"At 35.6 A.M. anchored below Coot reach and sent to sound; Found no water enough, marked the place and took anchors out and hove; at 15.1 P.M got over and proceeded to Coot; we took no coal; sounded opposite Coot, the place is bad, we left at 30.2 and steamed onto the Shoal and touched; took anchors ahead and hove on, two anchors were taken on the Starboard and Port and kept taking them further ahead and hove she went up, gradually and slow. The islands have appeared and the water is dispersed among so many of them. At 30.8 we hove over and had hardly steamed up passed the Islands to the opposite side when we again touched a Shoal and could not pass, took an anchor ahead and hove and by 10 P.M. they knocked off and all went to sleep; At 4 1/2 A.M. they begun to work, she floated and rounded and again struck, the steering chain broke aft, the block parted, they repaired it; At 7 A.M. we finished and proceeded from opposite Coot." (23-24 July 1899, 273-7)

Though they were intended to ease the difficulties of navigating through these low waters, towing the barges was an unenviable task. Despite their small draft, they had to be lightened in the summer months to navigate the extremely shallow river. Svoboda records: "Cowley is in a great funk about towing the Barge in this low season." (3 August 1899, 298-9) There was especially great difficulty navigating through the Devil’s Elbow, where the river was too narrow to accommodate the length of both boat and barge. (4 August 1899, 301)

The sweltering summer heat made the days long and arduous for Joseph. In the whole month of August, he heard from his son only once. Rezooki Metchich had forwarded another letter from Alexander, this time saying that he was in New York. He repeated the same empty promises that he would
soon return home. (10 August 1899, 313) Meanwhile, Joseph was miserable
and in ill health. His stomach churned with bile. Some days, his spine
troubled him so much that he could barely walk. He tried all manner of
medicinal concoctions in search of relief, Castor Oil, Opodeldoc, Cajaput Oil,
and more, but found none. (10-17 August 1899, 315-27) Joseph was nearing
his 59th birthday, and seemed to grow more cognizant of his own maladies and
of the mortality of his friends and family. On the sudden death of Artin
Apikyan, an Armenian clerk, Joseph wrote: "it must be from apoplectic
attack, he was subject to that and being very fat and; with a short neck, he is
about 60 or 61 years old." (19 August 1899, 333)

At the end of August, the Lynch Company received a familiar telegram. Over
the decades the company had waged a constant battle with the Ottoman
government over its right to tow barges on the river. Though they had been
re-granted permission to do so in June, word came that the Vali of Basra had
yet again told them to put a stop to the practice, on the orders of the Minister
of the Marine in Istanbul. (28 August 1899, 348) However, the following
morning, the Blosse Lynch left Baghdad with a loaded barge in tow, paying
no heed to the Minister’s orders. (29 August 1899, 349) When they reached
Basra, they found that the Lynches’ agent and the British Consul at Basra Mr.
Wratislaw had both wired regarding the barges. There was some confusion as
to whether or not they would follow the order. The crew began loading the
barge and the ship’s officers prepared to accept the consequences if they were
detained by the Ottoman authorities. As they were loading cargo, Wratislaw
came aboard and discussed the matter with Captain Cowley. The order to
stop had not come directly from the Sublime Porte. Rather, the Minister of
the Marine had telegraphed the Commodore of the Ottoman naval
detachment. It was decided that unless the order to stop came directly from
the highest authorities in Istanbul, they would continue towing the barges.
Without confirmation of this decision from the Lynches, the Blosse Lynch
departed Basra on September 4, with a barge in tow. (3-4 September 1899,
358-61) They did not encounter any trouble from the Ottoman authorities.

Later, at home in Baghdad, Joseph found a letter from Edward Blockey in
London, dated August .19 Blockey had tried on several occasions to contact
Rezooki Metitch, who had been forwarding Joseph and Eliza the letters that
Alexander had allegedly written from America. Blockey could not find
Metitch, but he did meet with Metitch’s landlord. The landlord told
Blockey that Alexander had come to visit Metitch about three weeks prior.
This, of course, must have meant that Alexander had not gone to America
after all. (10 September 1899, 375-6) After months of deception, Joseph
seemed resigned to his son’s mischief; he did not bother to even register his
disgust in his diary, as he often did before. Instead, deaths in the community
and the pace of work weighed heavily on his mind. First, Yousif Yaghchi’s
newborn son took ill and died, then Haji Abdulrezack Khdery passed away
from cancer at age seventy. Meanwhile, the company shipped so much cargo
that Joseph’s precious days at home in Baghdad were spent at the Custom
House overseeing a continuous schedule of loading and unloading. On
September 11, he wrote: "At 3 P.M. came on board to work, we shipped
Cargo, at 6 P.M I went home; what a fine life this is, we arrived last night, and
today am working on board and tomorrow also the whole day and we leave the
day after, I am so disgusted seeing such a work." (11 September 1899, 377-8)

In late September, Joseph received a letter from his brother Alexander’s
widow Blanche. Blanche wrote that the younger Alexander had corresponded
with her from London, repeating many of the same "lies about his illness" and
so forth. Hearing of Alexander’s renewed deceptions left Joseph and Eliza in a
foul mood, "so much that [he]could not eat or sleep the whole night." (26
September 1899, 405-6) At the beginning of October, Joseph arrived in Basra
aboard the Mejidieh. There were a number of ocean steamers in the
quarantine: the Turkistan, Kurdistan, and Afghanistan for Asfar and
Company, the Norge for Gray MacKenzie and Company, as well as the Royal
Navy Gunboat Lapwing. "There were rumblings" in the town of a cholera
outbreak. Arab laborers had come down with severe diarrhea and vomiting,
and an 18 year old Christian boy had died a few days earlier. Rumors
abounded. Some in Basra said that it was cholera, others downplayed the
sickness. (4 October 1899, 419-21)

On the morning of the 5th, Joseph left Basra aboard the Mejidieh with a barge
in tow. Passing Aziziyeh on the morning of the 11th, Joseph was awakened by
the sound of Ottoman zaptyehs shouting from the shore for the Mejidieh to
drop anchor. The crew sent their steam launch to shore to collect a telegram
from the Lynches. Because of the appearance of cholera at Basra, Cowley was
ordered to stop at Aziziyeh and not proceed to Baghdad, pending new orders.
This notification came from the British Consulate. This telegram confirmed
Joseph’s expectations that they would be stopped for quarantine on account of
the cholera at Basra. Diary 49 ends abruptly here, with Joseph and the crew of
the Mejidieh in quarantine. The last page of entries is torn. The final fragment
of text indicates that Captain Cowley attempted to send a telegram to shore,
but the Ottoman zaptyehs refused to take it. (11 October 1899, 430-1)
Newbook Digital Texts in the Humanities: Svoboda Diaries: Joseph Mathia Svoboda

[Notes on the diary transcriptions:
In many of the diaries there are marginal notes in Arabic written in ink by the Baghdad historian Yaqub Serkis sometime after he received them from Alexander Svoboda probably in the late 1920s. Because these notes are a later addition extrinsic to Joseph Mathia Svoboda’s writings, we have gathered them in an appendix where they are listed under unique identifiers—for example [A47_006_09:001]—recording the diary number, place in the diary, and numerical order. In this edition of the diaries, these identifiers are not linked directly to the notes in the appendix.

For some of the diaries, we have prepared minimal notes and glosses as well as extensive word lists. These are available from our website.

Images of the original diaries’ content are archived on the University of Washington Libraries content management system ContentDM. See:

http://digitalcollections.lib.washington.edu/edm/search/collection/iraqdiaries

For many of the diary transcription we have provided live links to the original diary pages invoked by clicking on the page numbers in our HTML display. Where links are not provided, one may refer to the original diary images in ContentDM.

In several of the diaries, pockets in the back covers hold a variety of memorabilia including newspaper clippings, pictures, and souvenirs. Some of the textual material has been transcribed and is visible in the HTML display.
This was not done consistently but the contents of the pockets are displayed in the images in ContentDM.

[p. 2]

1899
From Diary No. 48 [28 FEB 1899 — V049_00_S]

We finished Cargo at 3 P.M.; having loaded very deep;

The Waly of Basreh Enis Pasha and the Commander of the Troops Mohsen Pasha came to see the Shahzada the cousin of the present Shah of Persia, his name is Abdulhussein Mirza Farman Farman, also the English Consul Mr. Wratislaw, Mr. Hamilton the Agent of Hotz and Co. and is also the American Consular Agent; Mr. Richards of Lynch Brothers and a whole lot of Persians and other people; he has two cabins for 1st Class [p. 3] on Deck came to me, going to Gorna tomorrow to see his property for about 10 days absence, and then he promised me if his mother has really decided to go to Paris to bring Alexander, he will accompany her;
At 4,20 P.M. We left Basreh, flood tide is running up; The Persian Shahzada with his Doctor and Interpreter in 1st Class Cabins are messing by themselves.

At 10 P.M. landed 8 passengers at Gorna they are Nasser el Sagur, Abdulla Rawandoozi the Lawyer and Mr. Misakyan the Civil Engineer and followers going to measure the date properties so as to levy a tax in future at so much per Jerib; Ali Beg Mudir of the Tapo and Rufail are also coming to Gorna tomorrow;

Light air and rather warm weather; At 2,50 A.M. passed Azair and at 4 anchored; and at 5,30 We left; Weather very mild I finished with the passengers tickets we have in all 143 (5 in 1st Class, the Shahzada, Abdulhussein Mirza Farman Farman whose sister the Shah of Persia Muzaffar el Mulk has married, and a German Mr. W. Griege and Yousif Shamoon Nazo, but the two cabins of the Shahzada are also used by his attendants going in and out, and 2 in 2nd class Nassoory son of Georgis Ilo and sister)

At 10 A.M. landed 4 passengers at Kalat Saleh and Went on at 10,5, the guard turned out and saluted the Persian Shahzada; We are flying the Persian flag for him.

S. Easterly Wind and Weather Getting Cloudy

At 4 P.M. arrived at Amara, a guard of soldiers saluting the Persian Shahzada, and the whole population was on the bank, the Crowd was very thick and all hurried on board, the Motserrif and all the functionaries, the Persian Consular Agent in his uniform and the milè was so thick on board that I had to go in my cabin from the crash and confusion; We landed 12 passengers and 7 Bales of cloth;
We could not Coal ship on Account of the Crowd and so We left at 4.50 P.M.; Took 32 ½ passengers

Wind shifted to N. Westerly and fine Weather;

The Shahzada and his Doctor dined with us this evening I was interpreting between him and Capt. Cowley [p. 7] and the others in Persian and French

At 8.5 P.M. arrived at Coot landed 7 ¼ passeng and 8 Bales of P. Goods; We took 12 Tons from our Coal boat which had not been landed yet, so we did not go alongside some people came to visit the Shahzada the Kaimakam Jaffer Bey and the Persian Agent, [p. 8]

At 10.30 We left Coot, fine and cold Weather;

Light N.W. and cloudy Weather

At 6.30 A.M. passed Memlah; gave tickets to 411 ½ Coot passengers;

I paid the Ship’s Company their wages for February;

At 3.15 P.M. passed Azizieh Village;

At 3,30 met the SS. Khalifah coming down, We stopped and sent Mr. Taylor’s letters, him and his wife are on board going back, I got a few lines from Henry he says that my Wife has no news at all from Alexander, Michail Yaghchi is also on board going down to Basreh, the Khalifah has 47,000 Okkas and 228 passengers

We went on at 3.40 N. Easterly wind and cloudy all over

At 7.10 passed Baghdadieh Weather getting fine;

Light N.W. and little cloudy on the East

At 6.5 A.M. we came to alongside the bank at Ctesiphon to let the Persian Shahzada Abdulhussein Mirza to Visit the Tomb of Selman and the Arch; but he did not land till 7 A.M. after having made his prayers and took his tea;

At 8.30 the Persian Shahzada came and We left Ctesiphon. He sent for me telling me that he wishes to give the Crew and servants some present of few
Kerans and wants to Know how many the crew are, I told him 26 Mossulkees and the Tindal etc.; he sent me 120 Kerans to be distributed that is 3 K. to each of the crew and 10 K. to Meekha Tuidal, and 4 K to each servant etc.; What a mean and stingy man he is, he has given to Capt. Cowley a small carpet worth about 25 Beshlics; He also gave me 7 Envelopes to be given to the Chief, 2d and 3d Engineers and the Chief and 2d Mates, to Metty and to myself to keep as a rememberance from his part, every one I found Contains 5 1/4 Toomans in Gold, which amounts to about 10 Beshlics, the Engineers and Officers have refused taking them, but Metty and Myself Kept it; as it Will not be nice to return them to the Man.

I told Capt. Cowley of it, and he told Metty to take them and give them to the poors through the Nuns or Priests; they all took it back afterward;

River is rising, and wind blowing sharp from N.W.

At 0.5 P.M. passed Diala River—Ship is going very slow on account of the river;

At 2.10 P.M. landed a Deckman at Gherrara with letters and went on;

At 5.10 P.M. landed the mails at the Residency We went up to the Custum House, Great many people Crowded the banks, the Custum House and the Bridge, The head Constable Muklus Effendi and the Aide de Camp of Kadem Pasha came the former from the part of the Waly and the latter from that of Kadem Pasha to greet the Shahzada also the Persian Consul Without uniform but in a dirty clothes, they took the Shahzada to Persian Consulate on the other side of the river.

I went home saw Eliza also Antone Marine was there;

I found letters from Ibrahim Gejou from Paris dated the 3 February, he sends me back my letter of the 15 December which I had written to Alexander after the receipt of his last letter to me of the 13 November and Ibrahim says that he could not send Alexander in Paris and so he sends the letter back; an other letter from Mr. J. Böhm from Paris where he had gone for business and says that he had received from me my telegram in which I had told him that Alexander had wired to me from Constantinople that he was going to Port Said and coming here and he hopes that he has now arrived” an other letter from Yousif Serpos dated the 9 February, in which he acknowledges the receipt of my telegram to him of the 6 February asking him if Alexander had come to Egypt, he says that he had received a letter from him of the 18 January from Paris and he answered him and sends the copy of the letter

Eliza tells me that Mr. Richarz the German Consul told my sister Medula that the Austrian Consul at Paris writes in Answer to my complaint made on the 15 Decr, that the Police have not found Alexander in Paris and that he must have gone to England and so he wants to know what he is to do with the 300
francs I sent to him for Alexanders expenses. No other news we have of Alexanders whereabout;

Light N.W. and fine cool Weather  

Light N.W. and fine Cool weather  

At 0.45 A.M. passed [strikethrough]; Azizieh Village [p. 167]  

At 4.50 passed Baghdadieh Fort;  

I paid the Ship’s crew their wages for this month,  

At 3.10 P.M. passed Ctesiphon Light N.W. breeze, ship going very Slow;
At 6, passed Diala river, At 7,20 passed through the Bridge of Gherrara,

At 10,15 P.M. landed the mails at the Residency and went up to the Custum House the S.S. Baghdad is here arrived today at noon

I went home, saw Eliza she related to me a very sad news which befell to Artin my nephew [p. 168] after his betrothal

They had a servant [strikethrough]Tilkefly girl about 16 years old called Zekky employed at Johny to look after his little daughter and having left the service about 2 months ago; she has brought a complaint a few days ago against Artin for having violated her on promising that he will marry her and so she gave herself to him, and she aborted some time ago, now she claims him as her husband and being instigated by other women of bad repute to insist on and claim her right through the Turkish Government; and [p. 169] so she went to the Serai accompanied by a woman called Eliza bint Abdulmadi a bad woman, and there she cryed out and in the most courageous manner and face she complained of Artin having outraged her etc.; and so Artin was sent for and put in prison without being questioned or tryed, a thing against the rule Abduljebbar the Lawyer tryed very much to let him out until his case will be investigated, but they wont allow it; I have not learnt the affair yet how it [p. 170] occurred, as Eliza cannot understand it herself yet; I could not sleep at all till the morning from the sorrow on account of Artin;

Light N.W. and fine; I went downstairs and found the two letters one from Tom Blockey dated 4 May in answer to mine, he tells me that he hears that Alexander has gone to America with his girl and his son Edward arrived on the 19 of April from Baghdad via Bombay and Trieste; The next letter I opened and found it from Rezooki Metzich from London, and enclosed in it an open letter [p. 171] sheet of few words written by Alexander from Chicago dated the 15 of April with his Card in it printed as Traveller Explorer, and reporter to many news papers and magazines, he writes on it as being a Member of the Geographical Society; Rezooki Metzich Writes to me to say that he received this from Alexander to be sent to me but does not know his address as he is not fixed in one place;

Eliza and I went over to Sister Eliza, many people came there to [p. 172] see what to be done about Artin's imprisonement; Johny had spoken with Abduljebbar the Lawyer but this man seems not so inclined to defend Artin, there are many witnesses in favor of him; and they were to go today to the Serai; My Sister Eliza is very grieved and sorry at this matter;

I called on Mr. Richarz at 9 A.M. and asked him to write to the Austrian Consul General to remit my 300 francs which I had sent him for Alexander for his expences to the Banker of Monseigneur Altmayer in Paris and gave him his name and address [p. 173]

I then called on the Delegate Mons. Altmayer and told him that I had done so and requested him to write to his Banker to apply for the Money,
I went to Lynch’s Office for business and for some £ Sterling; and returned to Sister Eliza, took my wife and came home.

At 4 P.M. called again on Sister Eliza; Johny came from the Serai and says that they took the evidence of many persons they were all in favor of Artin, and also the Bishop came and as it got late to finish the evidence [p. 174] so it is left for tomorrow and so Artin will have to remain in prison tonight too etc. etc;

I came home at 6 P.M.; Light N.W. and fine

As I was taking a warm bath, Johny and Abduljebbar Effendi the Lawyer sent for me to come quick, as it requires my visit to Hamdi Beg the Mufettish Adlyeh to talk to him as he is my friend, and the matter will be settled so I hurried on, and Alexander Duncan the husband of Regina came with me to see Artin; but on arriving to the Serai, they told me that it was finished and my visit to Ahmed Beg is not required, so they let Artin out on bail and Abduljebbar stood as security and gave a paper I saw the deposition [p. 176] given by the bitch of the servant Zekki, a most horrible way— At 4 ½ P.M. Artin was let out and we all walked out to his house, poor Sister Eliza was rejoiced and weeping— This incident will cost Artin about 50 TLiras, for charges, presents and bribery etc. etc;

I came home and then called on Antone Marine came at 6, Antone then called on us for ½ hour;

Light air and sultry; at 7 A.M. I called on Menusha and then came on board Paid the Officers’ wages and Others; At 9 I went to the prison in the Serai and saw Artin my nephew he is in a room upstairs with two or three other Mahomedans prisoners, Johny was there and says that it will be settled today and Artin will be let out; I left at 10 and came home [p. 175]

As I slept at 7 and called on Sister Medula and thence came on board we are shipping some Cargo, At 10 I left and went over to Sister Eliza, my wife was there and we returned home at 11 ½— Hot Weather and Very light breeze from N.W. with few clouds

At 3 P.M. came on board shipping cargo;

At 5 I left and called on Colonel Loch the Resident, he is having an Auction sale tomorrow of his Kit, I left and came home; Shekoory Sayegh called on us; Very warm sultry and calm weather, With some clouds; [p. 178]

Light and variable breeze Warm Weather— At 7 A.M. I came on board, and then went over to the Residency to see the auction sale; I bought only a
Bookshelf for 12 12 Rupees and 1 anna; Came home it is very warm and sultry, light S. Easterly air with some clouds.

At 4 P.M. I called on Eliza and Adoola my cousins;

Johny and Artin called in the evening; Very calm and warm weather;

The SS. Baghdad and Barge left this morning at 4 A.M.

Very light S. Easterly and Calm sultry weather

At 7 A.M. called on Shekoory Sayegh and came on board. The Damascus Post arrived yesterday, no letters about Alexander from anybody.

It is getting very hot toward noon; at 11 I went to breakfast and came on board at 1 P.M.; Very hot, the breeze shifted to N.W. but is too hot; At 6 P.M. I left the steamer and came home;

I wrote a short letter to Alexander my son and enclosed it in a letter for Rezooki Metchich in London to be sent on by him to wherever he is and dated them the 8th Instant by the Damascus Post to be sent by my wife I kept copies of the letters,

The Mejidieh will drop down tomorrow early to alongside the wool Press of Eassayi where the Mejidieh is shipping the 500 Bales of Liquorice root; [p. 180] Calm and sultry Weather,

At 5.15 P.M. we got underway and proceeded, it became worse, the heat, light S. East. and Calm, impossible to stop in the Cabin; It was impossible to sleep in bed from the suffocation, we have 4 1st Class passengers also sleeping up with us;

At 11.50 landed 2 passengers at Gorna and went on at 11.55 Weather still very calm and the direction of the breeze is N. East and East.

Very light S. Easterly breeze and warm. At 4.10 am passed Azair; disgusting weather swetting awfully,

Today being the birth day of my son Alexander born in 1878, he has [p. 237] now finished his 21st year and entered in his majority he is still at large and we do not know where he is but most likely is still in London, his foolish behaviour toward us causes great grief and sorrow, and we do not know when he is going to come to his senses and return to his father and mother;

I finished with the passengers tickets we have in all 75 1/2 (4 in 1st Class 2 young Europeans one is called Herbert Nathan a Jew English merchant and coming to try his luck in Baghdad for a year, he belongs to the house of Mr. Rickie who was here last year [p. 238] for a few months;” The other one is a french man belonging to the Persian Imperial Bank coming from Bushire and going to Tabriz, the 2 others are Turks the Moodai el Umum, Izzet Effendi who went down with us in the [strikeout]beginning of last month, and the other is the accountant of the Public Debts called Hussein Ferid and is Messing with us)

At 8.50 am we came to the Shoal at Nafikh only 3 draaz water, The S.S. Phrat and Barge are here she damaged her rudder in backing and she is now repairing it, ahead of us. We took anchors ahead and kept heaving over close

along the Eastern bank; very warm and sultry and light S. Easterly breeze

At 12 am the S.S. Ressafah came down and anchored up above and sent to sound; We kept heaving over Breeze shifted to westward,

At 2 P.M. we hove over and proceeded passing the Phrat and Ressafah both at anchor;

At 2,55 P.M. passed Kalat Saleh; westerly breeze but very hot and sultry;

At 7,35 P.M. arrived at Amara landed 10 passengers, and 9 packages and Date branches for Lynch’s Wool Press; Light S. Easterly and warm weather; We took no Coal, and shipped 7 Bales; they have had it very warm here too

At 8,50 left Amara [p. 240] Light S. Easterly breeze and very hot;

At 9,30 a Native Boat laden with grain sailing down to our Port Sides, run us down striking the Ship’s Kitchen on the Port side and smashing the whole wood work and bending about 3 angle iron of the frame in a fearful manner our new 2nd mate Mr. Smart and the Steerman Selman (brother of Mahmood our Pilot a stupid and ignorant man who the Captain tolerate for his brothers sake) were on the Bridge at the time, we anchored and our Boat went with the Captain etc. to the Boat they found she has had no damage to herself but her Nacodah and some of the Crew had run away on seeing the Boat coming to them [p. 241]

At 10,5 we weighed and proceeded;

Wind shifted to N. West at about 9 P.M. and we felt better a little, the wind is not cool, but we are glad to get it coming against us, the moisture and great heat disappeared

Light N.W. and fine Weather not so refreshing but there is great difference in the atmosphere

Light N.W. breeze and very Cool night, I slept in my Cabin and found it very nice and cool, the breeze being on my side.

Light N.W. breeze and fine cool weather.

The Khalifah left at about 4 A.M. after shipping her Cargo. We sent to Sound the Channel and found it getting better and deeper, the strong current running down between the two sand banks is carrying away the sand; we took in few packages from the bank; At 6 ½ we steamed up toward the Shoal after having marked it; We worked over with the Engines and got over the Shoal at 7 ½ am. Wind increasing and blowing fresh;

At 2,20 P.M. the S Baghdad and Barge came down and anchored up, she sent to sound and at 4,15 she came and passed through the Channel without sticking over 3 draaz, it is getting better now,

An empty boat came down and we wanted her to bring us the cargo from the other side, they had 60 Beshlics for two trips, and when we greed to pay them that sum they changed mind and asked 80 and then went away by sunset; our men kept bringing the Cargo in the Launch all the night, it takes about 2 hours to bring one boat load,

Very light N.W. Air, but not so cool as yesterday, I could not sleep well in the Cabin last night. At 6 A.M. a Sakka on his donkey came from Baghdad with a letter from Mr. Bottomley for Capt. Cowley; he asks him to send all the papers and manifests so as to get ready every thing for us to discharge etc.; I wrote a letter to my wife also and the Sakka started at 6 ½; he had left Baghdad yesterday at 2 P.M. and slept the night on the way;

We have about 300 Packages to bring yet to the Ship:

At 1,30 P.M. the S.S. Phrat arrived from Basreh she made fast alongside the bank below where our Cargo is landed and Sent to sound, Today is a hot day with moderate hot breeze;

At 2,45 the Phrat Steamed and passed up close along side of us there are now 3 and 3:30 draaz of Water;

It became very hot in the afternoon, the wind died away, the Cabin is like a furnace; a light S. Westerly breeze and very hot at 6 P.M. We are still getting the Cargo from the Other side about a mile distant by our Launch towed up by a rope made fast to the Ship and worked by the Steam winch,

At 8 ½ P.M. we got the last Boat load of cargo from the bank; very light-air and warm;

At 8,35 P.M. We Got underway and proceeded from Ledje. Weather warm with light N.W. breeze.
At 12 P.M. we grounded at Semreh reach the current being very strong and narrow and the ship turned broad side on. Took out an anchor right ahead and remained for the night without heaving on, so see perhaps the current might shift her position,

The S.S. Phrat is aground just ahead of us

Light N.W. and fine, We Kept heaving but she wont move, the current running under her bottom very strong,

The Phrat left at 6 and steamed up~

At 9 P.M. we hove off and proceeded, wind freshning up;

At 10 „30 passed Ctesiphon; fresh dusty and hot wind;~

At 12 we came up to the S.S. Phrat aground and sounding at Jaffer, we touched and backed and then went on at 0 „45 P.M.;~

At 1 „25 P.M. passed Diala river;

At 2 „34 passed Gherrarah after opening the Bridge for us~

At 4 „50 P.M. landed the mails at the Residency and steamed up to the Custum House; no steamers are here; the Police detained communication prevented people from coming on board for ½ hour until they overhauled the passengers for their Passports [p. 254]

I went home saw Eliza, also Catterina Yaghchi was there; they have had it very hot here too last week, Pere Pièrre called on us;

On our arrival here we saw all the flagstaffs of the foreign Consulates half mast; they say that the brother of the Emperor Nicholas of Russia Grand Duke Georges died on Monday last;

At 9 P.M. the S.S. Phrat and Barge arrived ~ Artin my Nephew also called and left at 8 P.M.

Light N.W. and fine weather I have a very bad tooth ache since 4 days and now it is worse and cannot sleep at all; ~ [p. 255]

Light N.W. and fine weather at 7 A.M. I called on Sister [strikethrough]Medoola and then came on board; We are not discharging in the Barge; I sent money to the Office and went on Shore, at 10 called on Menusha and on the Tanton’s family to Condole then on the death of their Mother Medool who died on the 2dInstante; I went home;~ I took a bathe cold water, and at 3 P.M. called on Sèdi the wife of Jeboory Asfar who came up in the Khalifah last time, they are living in the house of Naoom Serkis close to my house, I then called on Antone [p. 256] Marine, saw his wife and children; I also called on my sister Eliza and came home at 6:30 P.M.
Light N.W. and fine cool weather;"

Light N.W. and fine cool morning, it was very nice and cool last night, and had to cover myself;

At 7 A.M. came all aboard, We are discharging cargo, and will leave tomorrow morning, I went to breakfast and came back at 12 1/2 on the way I met Yousif Korkis; he said to me that his brother Rezooky sends him a letter from My son Alexander, and it is in his office; I sent [p. 257] for it and got it, it is an Arabic letter written to his mother, he puts no place where it is written from nor date, he complains to us of our misbehaviour to him and he is very angry why I accused him to the Austrian Consulate in Paris, he says he is in America and he is making his livelihood and gaining about 500 Beshlic per month, and he hopes of seeing us one day; etc. etc, he has received 200 francs from Rezooki Korkis which his mother sent him; in January this year [p. 258]

At 6 P.M. I went home took the letter of Alexander and read it to Eliza;"

I slept in my cabin but felt it warm till midnight [p. 355] then it got cooler, but I did not sleep well from the noise at Amara; I received Henry’s letter and my news papers etc.

At 4,40 A.M. we left Amara, Very light N. Easterly breeze and not pleasant at all; Took 24 Passengers,

Weather getting calm and warm;

At 10 grounded at Nafikh and took a stern anchor out, the place is so in and out and narrow blind sand banks and Boats alongside, It became very calm and Sultry warm day; Az at 12 got off and proceeded from Nafikh;

From 1,45 P.M. till 2,30 were detained in passing the Elbow etc. and from 2,30 to 4 P.M. it took get to Ghumeyjeh, thence [p. 356] we went on alright;

Breeze very light N.W. and awfully hot;

At 4,55 P.M. passed Azair; After sunset it became very calm and warm, it is 103° in my cabin; Swetting very much;

At 8,30 landed one Passenger at Gorna and went on, Very warm and calm weather,

At 10 met the SS. Rusahaf and Barge going up and a steam Launch in which the Agent of the Turkish steamers Hassan Effendi came off to us to see the Nadir of the Custum House, we towed her for about an hour and then they went away:

At 3,15 A.M. we arrived at Basreh, weather very unpleasant, there is a light N.W. breeze but [p. 357] it is not refreshing;

There are many steamers the "Arabistan”, Westburn for Kassim Khder to load Barley as well as the “Norge and the “Pollonce” for him too, the latter is in quarantine yet, there is also the SS. Hussein of the B. and P. S N. Copy in quarantine, The mail steamer has left yesterday having waited one day for us;

We are leaving tomorrow, Rufail and Rezooki came down they went in to Basreh and wanted me also to go, but I did not like, it being very warm and I do not feel well having also a tooth ache
As an Order had been wired from Constantinople to prevent us towing up Barges and the Lynch’s Agent and Consul also wired, there is no answer up till now, So we are to tow one this time and stand the consequence; we have a great deal of Cargo here is accumulating;

At 4 P.M. I went with Rufail and Rezooki to their house, they are packing dates, Rufail is making about 15,000 Boxes, the dates are plentiful this year, the Crop is very good;

A light N.W. breeze and a little cool;

At night the breeze changed to S.Est and again to N.West;

Very light N.W. breeze, and fine, at 7 A.M. I came on board; There is an Other Steamer for the P. and P. [p. 359] gulf S.N. Copy called the Ningchow of about 6000 Tons;

At 11 1/4 A.M. the SS Arabistan left for London, she will fill up at Fao some more cargo; at 11,.45 the SS. Westburn also left;

The Turkish man of war the small Brigantine called Sayad; has left for Constantinople at 5 P.M. She is very small and unsea worthy and besides being so badly manned, I doubt if she will ever reach safe her destination” We are waiting for the Barge, being loaded at Lynch’s wharf” Mr. Wratislaw the Consul came on board to see if we are going to tow her, as he has no news or received an Answer from Constantinople although the Minister of Marine has only wired to the Commodore here to stop towing, it is not from the Sublime Port;

We received the mails
Very calm and warm weather. At 6 P.M. got underway and proceeded took the Barge in tow, she is drawing 2 feet 4 and the Steamer 3.5 Inches. Very calm and warm weather and Light S. Easterly breeze.

No one came from the part of the Turkish authorities to say anything about the towing of the Barge. We have only Khorshid Effendi the Ex. Kaimakam of Shatra in 1st Class to Baghdad.

At 2.5 A.M. we passed Gorna. Light S.Ely breeze and dampy.

At 7.15 passed Azair; At 8:30 A.M. we got to Ghumeyjeh and here begun our difficulty in steaming up, the place is shoal narrow and current Strong. We kept steaming ahead but scarcely moving, took a rope on shore and hove up to it.

The S.S. Ressafah and Barge is ahead of us about 2 Miles, above the Elbow, she has had the same thing here for she is two days ahead of us; at 3 P.M. we got up to the bite and begun to go a little quickly.

We have Altogether 61 Passengers (Khorshid Effendi Kaimakam of Shatra only in 1st Class to Baghdad)

At 5 P.M. we reached the Elbow; going very slow;

Very light air and warm Weather and we managed with difficulty in passing the Elbow by 4:30 P.M. and at 6:30 we stopped below Aboo Roba and had to take an anchor ahead and heave up, the Ressafah is at Aboo Roba also trying.
to get up;” Very warm and dampy Weather; it is so moisty and no air or rather a light S.Ely but very moisty and disagreeable [p. 363]

I cannot go into my Cabin it is so warm and moisty; We remained at anchor below Aboo Roba for the night; The Ressafah went on later at night from above Aboo Roba; Weather warm and moisty; It cooled a little later at night;

Very light air and a little Cool We took out an anchor and hove up” At 5,45 A.M. steamed up Slowly; Detained at Aboo Roba in the narrow and shoal bend and had to heave up”

At 7,25 proceeded Light S.Ely breeze, at 8,20 detained at Nafikh in shoal water and going easy; The Ressafah is at Kalat Saleh, At 10,40 we went on

At 1,50 landed 3 passengers at Kalat Saleh [p. 364] and went on, The S.S. Ressafah and Barge are still here she had lightened herself into a boat and took the Cargo in here"

Very light N.W. and hot weather, We took one passenger from Kalat Saleh; The Ressafah is following us”

Breeze shifted to a light N.W.”

At 6 P.M. arrived at Amara landed 10 Passengers and 24 Bales of through Cargo, At 6,30 the SS. Khalifah and Barge came down from Baghdad; she went alongside of us, I went on board of her with Capt. Cowley in the Launch we took the Bombay Specie back to her; I saw [p. 365] Henry, he says he left every body well, they left on Sunday with the Barge in tow; Shekoory Sayegh is on board going to work dates for Rufail Sayegh; She has 100,000 OKes and 122 passengers, besides some free of Lynch people going to work for dates, (Georgis Moorad and Naoomy Bahoshy etc.)

We came on board at 7 P.M” We took 10 tons of Coal”

Gave tickets to 58 Amara passengers; (Abdulkadur Khdney in 1st Class going to see his father Abdulrezak being very ill, he goes free as well as a Servant with him)

At 9,10 A.M. landed 8 passengers at Ali Gherbi and went on at 9,20; took 2 passengers”

I paid the Ship’s Company their wages for August; Hot wind and moderate N.W.

At 4,55 P.M. picked on board 4 passengers from Sheikh Saad for Coot;

Wind fell down but it is nice and cool; The Moon is 2 days old;”
I slept in my cabin it being cool with a light N.W. breeze [p. 367]

Light N.W. and fine; Detained about 1\frac{1}{2} hour below Coot;

At 2 A.M. arrived at Coot, went alongside below our Dépôt, landed 20 Passengers and took in 10 Tons of Coal,

At 5, 20 A.M. we left Coot, weather getting cloudy, it is on the East and South, Gave tickets to Coot Passengers We have 51 (3 in 1st Class, the wife of Khorshid Effendi with him in one Cabin the Kadi of Hai Rafat Effendi Sinaly, and Izzet Effendi an employé in the Sennyeh with their families and servants on Deck) Besides the Hamalbashi of Coot free by Capt. Cowley;

At 8, 50 we stopped at Um el Boonny the bracket [p. 368] of the rudder carried away,

At 10, 45 proceeded from Umel Boonny, after passing through the shoal of 2:30 draaz; Wind is blowing hot and clouds still hang about; It became very calm and hot in the afternoon, the clouds which means heat, are fading away;

At 5, 10 P.M. came to the shoal at Bughela just above the village, Boats of Liquorice aground there, We sent to sound; and took out an anchor ahead and hove off from where we touched and drifted back and steamed up through the marked Channel,

At 6, 45 proceeded through the sounded Channel; Very light N.W. breeze, and very few clouds” [p. 369]

At 7, 10 passed Memlah, Very light N.W. breeze”

At 12 Came to Um Sneyem and tried to pass but touched several times and after an hour we anchored for the night; I slept in the Cabin, it being nice and cool;

Moderate and Cool N.W. breeze at 5 A.M. proceeded;

At 10, 15 Grounded at Brenij above Humenyeh took out an anchor and hove off, at 11 we got off, but on going on, the arms of the starboard wheel broke and had to come to for repairs,

I made up my mind to land here and walk across to Abdulla to shoot; there is a fresh wind but the sun is [p. 370] still hot;”

At 1:30 P.M. I dressed and took the Deckman Shansoka and went out; walked across the desert to the bank and mound below Abdulla reach and walked up the bank, no partridges are to be seen, the Cover is good, but it looks desolate and dry; lots of pigs started about 15 from beneath the cover; I went twice to the bank to have a drink the wind blowing strong and hot; we put up about 6 or 7 partridges at a distance and I shot only one which put up before me, after I had got far up the reach, flashed 3 or 4 hares at a distance and by 5 P.M.
I had to come to the bank and sit down to await for the Mejidieh near the place used to be called Cherd Dowd el Farman, I was very tyred and been so very disgusted in not finding any partridges; Besides I could not walk any more, having got the pain on my right Knee, a muscle or the bone commenced to ache fearfully so that I could not possibly walk or move on, the Weather became Cooler as the sun went down, and I saw the smoke of the Mejidieh at Raddat coming up.

At 6,15 I embarked and we went on; The Mejidieh had left Brenij at 2,10 P.M. At 4 she stopped at Azizieh and the Boat went on shore with Abdul Kadur Khderi he expected a telegram from Baghdad about his father’s health, but as he had received none, so he landed to go overland to Baghdad; Abdulrezack Khderi his father must have died before this;

Tom Dexter the 2nd Engineer of the Comet was at Azizieh he has been sent down to explore the best shooting grounds by Major Melville the British Consul as he is coming down in the Comet and wants to shoot on his way down

Very light N.W. breeze and fine weather;

At 8,20 PM we grounded below the Dijleh’s wreck, took an anchor out and hove off, at 10,45 proceeded easy.

At 11,15 P.M. passed Baghdadieh Fort; Light N.W. breeze and fine weather, I slept in the Cabin; my feet are sore and feel very tyred, I see that I cannot walk so much as I used to do a few years ago, especially this pain in my right Knee.

Light N.W. and fine cool weather; a proper Autumn morning; We passed Oweyn at 5 AM; Detained at Bostan 15 M in Shoal water also at Semra about 10 M.

At 0,20 P.M. passed Ctesiphon; Fine cool Weather; Detained 10 minut at Jaffer.

At 4 P.M. passed Diala river;

At 5,40 P.M. I landed at Gherrara to walk in, there are many tents pitched out here on the bank; Elias Jejo’s family; Antone Maghak and many others, Also Antone Marine, and Jeboory Asfar’s family but they are not out yet, they only have their Tents; on reaching the Gardens I got a Donkey of a Sakka returning from Gherrarah and I rode in; I arrived home at 7, saw Eliza on top of the house, she is alright;

I found a letter from Edward Blockey from London dated the 19 Augst he tells me that he went twice to see Rezooki Metchich but could not see him, and his landlord told him that Alexander had come to Rezooki about 3 weeks ago on a Sunday, So it appears that Alexander has not gone to America.

Light N. W. and fine cool night;
Variable air and calm;

The SS. Phrat left this morning at 5 am; at 7 I called on Sister Medula and came on board we went alongside the wharf to discharge. We are leaving the day after tomorrow.

The little child of Yousif Yaghchi who was born on 26 Augst, suddenly took ill and died on Wednesday last the 6th the mother Louisa and the father were very much grieved and sorry.

H. Abdulrezack Khdery died on Thursday night the 7th Instante from an other abcess or cancer he got on his side, he was over 70 years, his son Abdulkadur whom we landed at Azizieh arrived yesterday morning too late to see him.

I went on shore at 9 A.M. called on Menusha for \(\frac{1}{2}\) hour and came home, I took a bath, and breakfasted.

At 3 P.M. came on board to work, we shipped Cargo, at 6 P.M. I went home; what a fine life this is, we arrived last night, and today am working on board and tomorrow also the whole day and we leave the day after, I am so disgusted from seeing such a work;

I found Antone Marine at home he came for \(\frac{1}{2}\) hour he is going out to Gherrarah with his family, and wife and children of Jeboory Asfar after we leave.

Johny and Artin called on top of the house. The Monseigneur Altmayer had called on us during the day, but I was on board the steamer;

Very light and changeable air, but cool night.

Very light and variable air,

At 7 \(\frac{1}{2}\) A.M. I came on board; we shipped cargo and many bales of wool,

At 11 \(\frac{1}{4}\) I went home to breakfast, returned at 2 P.M.; Weather is warm and sultry no wind, all the Cabins are let,

We finished at 5 P.M. and hauled out; I went home found there Sister Medula, Antone Marine, Adoola my cousin and Shekoory Andrea; they left at 6;

Mr. Duncan Alexander the clerk of the Comet and husband of Regina my Niece called on us on top of the house till 7 \(\frac{1}{2}\) "

Moderate N.W. and fine

At 1 P.M. I went up with Rezooki Sayegh to their house, saw there Tookyeh, also Shekoory Sayegh employed by Rufail to superintend the packing of his date Boxes about 10 or 11,000. The price of dates has been fixed at 260 Shamies (10 G. S. Piasters per Shami) the Hellawy and Khadrawi per big [p. 389] Kara of 40 Baskets and the Sair at 120, it is the cheapest price that they have seen for many years as the crop this year has been one of the most extraordinary abundant. But now the price went down so low as 220 and even 210, and the Sair too in proportion; The exporter of dates will make a good profit in England, as it is selling in London at 14 Shillings and now came down to 13 and 12 per one hundred weight.

Rezooki Angoody came there and we all dined together, then Yousif Marine came from Shaebeyeh he went to see Jeboory [p. 390] Asfar and thence went back to Shaebeyeh.

At 240 we steamed over and went on;

At 3 passed Memlah; Detained at Sheresh from 5 1/2 till 6 in shoal water; Clouds disappeared, a very light N.W. breeze.
Clouds still hanging on the N. and W. horyzon and not so cool, We easied and stopped at many places

At 0,45 A.M. anchored at Zeljeh, weather became hazy and a little foggy;

At 5 proceeded; Very light air and clouds spreading every where [p. 402]

I paid the Ship’s people their wages today for this month, as our two day’s stay in Baghdad every time, would not give me time to do so;

At 1 P.M. passed Baghdadieh, Clouds still and hot day; x Southerly breeze and warm disagreeable Weather;

After sunset it became dark and weather very unsettled with a light S. Easterly breeze we got to Aweyn by 7 P.M. We touched here and then anchored, sent to sound, and remained for the night at anchor, the channel is very good and weather fine

Light S. Easterly breeze, with some clouds on the East and southern parts;

At 5 A.M. proceeded [p. 403] from Oweyn;

Detained in Shoal water at Bostan from 8,10 till 9 Am

At 0,30 P.M. passed Ctesiphon

At 3,35 passed Diala river; Still cloudy and breeze from West;

At 5,10 I landed just above the Bridge of Gherrarah and walked back crossed over the bridge to Yousif Korkis’ Tents where my wife Eliza is encamped with 2 Tents and 2 the Very small ones; there are also Yousif Korkis and his family and mother, Georgis Segman, and Rezooky Tessy; and on the other side at Gherrarah are over 50 Tents lots of Christians and among them Antone Marine and Sedy Wife [p. 404] of Jeboory Asfar

Eliza is well; she has some letters arrived for me two from Shweiger one from Joory son of Antone Marine from Beyrout, and one from my sister in law Blanche from Eplissier par Poix Somme, France where she had gone to see her sons being unwell, and she sends me the correspondence she has had with my son Alexander in London she wrote to him [strikethrough] and he answered her on the 17 August a very long letter which she sent me to read a tremendous long letter telling her all what happened to him and how I behaved to him in an ungrateful manner etc. etc, it took me about an hour to read and translate to Eliza which made us feel quite sick and sorry to see him still insisting in his former pretentions and telling all sorts of fibs and lies; so much that I could not eat or sleep the whole night and there were plenty of Sandflies

Light N.W. and fine or Calm, at 6 A.M. after I took my tea I left Eliza
Walked over the bridge and there found the donkey waiting for me I rode to
town, arrived home at 7 Am, there are a Mossully and his Wife sleeping and looking after the house [p. 406] I washed and called on sister [strikethrough]Medula and then came on board at 8, worked and at 9 left and went to see Sister Eliza, and then to Regina her daughter who is confined of a son on the 18th I called in Office took 60 £ from Mr. Bottomley, also called on the Assyrian Bishop and on poor Catterina Wife of Rezooki Serkis who died on the 16th Aged about 63 years old; at 12 I went and breakfasted with sister Medula and came home at 1 P.M. had a cold bath and at 3 P.M. came on board, worked in shipping cargo, at 5 went home, [p. 407]

Weather became very cloudy all over and a few drops of rain fell; Artin came and we both went to Sister Medula and dined with them on top of the house; At 9 P.M. we left I came home, I slept below in the big room, It blew a Very strong wind squally and dusty and cloudy;

N. Easterly Wind and cloudy [strikethrough]Weather not cool and fresh

At 8 A.M. I came on board having waited for Eliza my wife but she had not come till 9 Am;

We are shipping cargo a good deal; Weather got cloudy all over and hot At 11 ½ went home saw Eliza came in from Gherrara, We breakfasted and I came on board at 1 ½ P.M. [p. 408] We are shipping cargo, it is very warm and cloudy a curious Weather now The Thermotr. was 98 in my cabin this afternoon;

At 5 P.M. I finished and Went home, Johny and Artin called in the evening

A son of Azoori Chanteduc about 4 years old died yesterday evening from having been burnt while playing with his brother; Azoori or Lazar Chanteduc is the brother of Menusha Henry’s Wife, he is employed at Lynch as clerk;

We slept in the big room but it is awfully warm no air and suffocating Weather is cloudy too; [p. 409]

Light air and warm At 4 A.M. Eliza and the Watchman Muttar came with me to the steamer to land them at Gherrarah; I asked Capt. Cowley Yesterday to land them; also to Allow the Khoory Toma Bahi to let him land with her as he wants to see the Assyrian Bishop Aghnatius off, as this latter is going to Calcutta for 6 month’s leave for business and the Khoory Toma is acting for him; But this morning when Capt. Cowley came on board he sent to say that he cannot take Khoory Toma to Gherrarah as Mr. Bottomley Objects [p. 410] to landing any people, I offered to pay the Coot passage, and even that he objected, so he went back on shore, I am awfully sorry, for it, as my wife had invited him to stay and breakfast with her; I am so very sorry and disappointed at such a disgusting way of treatment”
