Recruitment Script for Girls

UNIVERSITY OF WASHINGTON
RECRUITMENT SCRIPT FOR GIRLS AGES 10-18

Study Title: Information, education and communication (IEC) on sexual and reproductive health (SRH) for adolescent girls in rural, southern Malawi: a Landscape Analysis

• We are conducting a study to learn more about what girls in your area are taught regarding their bodies and pregnancy.

• Talking to girls like you will help GAIA to educate girls and try to prevent them from having babies too young or when they don’t want to.

• If you choose to participate, we will sit and talk together for about 45 minutes, either in your own home or another close and private place. We will talk about:
  
  o Where you get information about your body and pregnancy, and what are you taught?
  
  o How would you most like to get this information?

• Your answers will be saved without your name, so no one will know the information came from you.

• You can decide to stop at any time. You just need to tell us right away if you wish to stop talking.

• You will receive a bar of body soap as a thank you for your time.

• If you choose to participate, we will review the details of the study first. This is known as providing consent, and then we will begin the interview.
