Program Notes:

Pierre Leemans served in the Belgian army during World War I, and was asked by his regimental commander to write a march. He began the march, but it was never finished. Later, near the end of World War II, he was asked by a group for Belgian paratroopers to compose a march, and remembering his earlier theme, he did, the result being this very popular march. Since that time, bands throughout the world continue to program March of Belgian Parachutists.
been on the podium with the Boston Pops, The Cleveland Orchestra and the Chicago Symphony Orchestra at Ravinia. A native of Ohio, Mr. Reineke is a graduate of Miami University in Ohio, where he earned bachelor of music degrees with honors in both trumpet performance and music composition and currently resides in New York City.

**K2**, also known as "The Savage Mountain," sits on the border between Pakistan and China. It is the second highest peak in the world with a peak elevation of 28,251 feet. Thomas Montgomerie named the peak using the Great Trigonometric Survey. The policy was to use local names whenever possible. However, K2 had no local name due to its remote location and continues to be known today by its surveyors mark. K2 is so severe a peak, many feel the name is appropriate. The greatest challenge of ascending K2 is the extreme high altitude. There is only one-third as much oxygen as there is at sea level. The second greatest challenge is the climate. Due to the severity of its terrain, K2 gives little to no shelter from its many storms which can blow up with little to no warning.

**Julie Giroux** was inspired by all the wonder, grandeur, starkness, and emotions created by the Savage Mountain. At times the listener will view the mountain from a distance, at times close up, and at times will feel the loneliness of being on an alien landscape.
